CONVEYANCES.

Whenever the letters Q. C., C. a G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

7th.—The letters R. S. mean Revenue Stamp, as R. S. $8.00 means Revenue Stamp $8.00.

Tax on Conveyances executed prior to July 1st, 1901, on $100 to $500, 50c., and for each additional $500 or fraction thereof, 50c.; on Conveyances executed on and after July 1st, 1901, 25c., where consideration exceeds $2,500 and is not more than $3,000, and 25c. for each additional $500 or fraction thereof.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find Mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

Mortgages under this head marked with a * denote that the property is located in the new Annexed District (Act of 1895).

June 6, 7, 9, 10, 11 and 12.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The Private Branch Exchange System of supplying TELEPHONE SERVICE is particularly adapted to the requirements of LARGE HOTELS and APARTMENT HOUSES

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a Private Branch Telephone Exchange.

Full information on request at any of the Contract Offices:

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

CUTLER M'F'G CO., Rochester, N. Y.
SOLE MAKERS AND PATENTEES.

This (MF) trade mark is stamped on every sheet of the best roofing tin made. This (MF) mark means "Most Favored," because this brand is most favored by architects, dealers, and builders everywhere. MF Roofing Tin was first made in Wales 50 years ago—later the process was improved in America—and the product developed, until now MF Roofing Tin is more in demand than any other brand. The superior quality of MF Roofing Tin is attested by the first prize awarded it at the Paris Exposition, 1900, where it was in competition with all the world.

MF

The entire tinning process is effected by skilled hand labor, without the use of acids or rolls. The very best plates, the greatest amount of pure tin and new lead, the utmost care in manufacture, successively contribute to making MF the best of all roofing. It is most economical, because it lasts longest—many roofs made of MF 50 years ago are sound as ever today. MF Roofing Tin is sold by dealers everywhere. Specify it in your building estimates. Ask your roofer,

or write { W. C. CRONEMEYER, Agent, Carnegie Building, Pittsburg

and receive illustrated book on roofing.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXIX. JUNE 21, 1902. No. 1788

ALL that can be said of the Stock Market is that during the week there has been some good buying along conservative lines—that is, among sure dividend payers and bonds in good credit. This buying is explained by the necessity that will soon arise of providing a use for the July disbursements. It is earlier than usual because it is becoming more difficult than ever to invest money satisfactorily and profitably. Pool buying has also been a distinctive feature. Generally speculation, however, is small and as a result that side of the market is very dull and commission brokers are complaining. The influence of the coal strike on general business has not made itself apparent as it must do if the strike lasts much longer. The general feeling is that it will not, but that it will end as the steel strike of last year ended by the failure of workmen in allied fields to respond, with something more than sympathy and assistance in money when appealed to. For this reason the announcement of the calling of the convention of the bituminous coal miners failed to create alarm. For all that, the situation is an unsatisfactory one, and the struggle is likely to last and grow more bitter as time goes on. Therefore, development in business or advance in prices unless explained by special causes, have the appearance of being forced and unnatural.

THE serious and regrettable mishap that befel Major Shaler in the Rapid Transit tunnel has not only created much sympathy for the victim in building circles, but is also arousing criticism of the plan of work. It is claimed by practical men that, as a general proposition all rock cuttings under which trains have to pass ought to be protected by brickwork, and that this rule applies especially in Manhattan Island where the rock is flaky and seamed and in which "faults" often occur. A letter taking this ground will be found in another column, and the subject is one that ought to be taken up without delay. If there is any danger of a repetition of the accident referred to, the tunnel should be protected with a brick arch as boring goes on. It will certainly not do to wait until a disaster occurs involving a train load of passengers, if there is any need to take preventive measures.

OF all the best British securities, Consols have suffered most during the period of the Boer war. This is not surprising since the British Government have been borrowers in the market during that time of about $320,000,000, mostly in Consols. The difference in price between now and three years ago is thirteen points, while the decline in Indian and Colonial loans has not been more than five points. One investment railroad stock fell off thirteen points from special causes, but others in this class have felt the temper of the market in a much smaller degree. At the same time Industrials suffered, even those issued on the business of providing war supplies; but the greatest sufferers were the stocks of steamship companies. In all this may be seen natural commercial consequences rather than the influence of the political events of the period referred to. It ought to be inferable also, that so soon as the liquidation consequent on the cessation of war expenditure is over and the capital engaged in providing for the wants of the government is released, that gilt-edged securities will appreciate. The relative position, the great sea-carrying nations are to take as a result of the Morgan shipping coup is occupying attention. In Great Britain steps are being taken to meet the American combination and in Germany attempts are being made to show that the latter cannot pay. In this connection a very pessimistic estimate of the probable financial results of the combination has appeared in the Frankfurter Zeitung. It is understood that this estimate emanates from a financier very near one of the great German lines. He compares the probable earning capacity of the company with the actual results obtained by the two German lines for several years past, as follows: The company, having a capital of about $700,000,000, must earn $70,000,000 a year in order to pay a dividend of five per cent, and write off five per cent, which latter is regarded as the lowest possible allowance for depreciation of steamers. But in order to obtain so favorable a result, the Trust, having a tonnage of about 700,000 tons, will have to earn, roughly, $25 per ton yearly. On the other hand, the two German lines, having for several years past an average of about 900,000 tons together, have only been able to earn about $12.50 per ton. It is regarded as quite impossible that the Trust, with its 700,000 tons, should earn twice as much as the German lines with their 900,000 tons.

The Real Estate Situation.

The sales reported this week cover almost all sections of the city from the jewelry district down town to almost the upper end of the Bronx, including also all classes of property from old buildings to the most modern and up-to-date apartment houses. In the latter class is the Barnard, at the corner of Central Park West and 71st street; Mr. Kight built this house for sale, and the pity is, that after several years of hard work incidental to the handling of a big proposition of this kind, the best he could do was to trade it for a little cash and a lot of out-of-town property. Considering the fact that nearly all the West Side apartment houses which have been disposed of recently, were traded for out-of-town equities (?) and a little cash in each case, one is led to ask where is the investor and why don't he buy these properties that show such a big return? A sale of more than usual interest and one which tends to draw attention to 6th avenue, north of say 45th street, is that by Judge Dugro of the northeast corner of 6th avenue and 54th street, at an advance of $29,000 over the price paid recently at auction. Property on this avenue has not yet been affected by the big advance in prices that has taken place on 7th avenue and Broadway, and while the L road may be a great objection at present it will not be long before electricity will be substituted for the present motive power, and then the whole avenue north of 42d street will become available for apartment houses or hotels, which do not appear to be affected by the L road; the one at 58th street and 6th avenue, it is said, is more than half rented already. The week's news hardly seems complete without the announcement of a new apartment hotel or theatre; there is one of each this week; the theatre will be built by B. F. Keith, on 39th street, near 6th avenue, and the apartment hotel, strange to say, is not in the Longacre Square district, but on 77th street, just east of Columbus avenue and opposite Manhattan Square, a remarkably good site for such an enterprise. The Orleans, at Columbus avenue and 80th street, facing the square and the L road, is said never to have a vacancy.

The Work of the Week.

The decision of a prominent cloak house, now at Broadway and 12th street, to erect a building, and open an establishment on 34th street, is interesting both because of the old situation, which has been vacated and the new situation which is to be occupied. The removal of another large firm, from a location, which forms a part of the 14th street shopping district is strongly suggestive of the inevitable transformation of that region from being partly a retail and partly a wholesale district into a district devoted almost exclusively to wholesale business. A number of large retailers are hanging on to their shops on Broadway, south of 14th street, and on 14th street itself; and doubtless they will continue to do so for many years to come; but it looks as if in the long run they would be forced to move. We do not believe that either the New Jersey trolley terminal at Hudson and Christopher streets, or the express subway station at 14th street and 4th avenue, will exercise a sufficiently strong influence to counteract the obvious tendency toward the concentration of the retail trade further north. The removal of R. H. Macy & Co. alone means that from 25,000 to 40,000 people, that are now brought daily to 14th street on shopping bent, will not hereafter throng the streets, and spend some of their money in other places. We have no doubt that stores, such as Wanamaker's and Hearn's will be obliged in the end also to move, and to leave the vicinity of 14th street and Broadway and 5th avenue to the wholesale dealers. Such large shops cannot afford any but the very best locations. They must be central on the penalty of becoming merely local shops, and of losing the prestige that attaches to an unexceptionable central location.

The Northerly Movement of Retail Trade.

It looks now as if 14th street would be too far south and that one firm after another would have to follow

the example of R. H. Macy & Co. and Myer Jonasson. The precise extent of the displacement cannot as yet be well described. There is a certain tendency, at present observable, for retail firms now situated in the neighborhood of Broadway and 23d street either to move to upper 5th avenue or to open additional shops thereabouts. But these firms, such as Dunlap's, The Gorham Co., Kaskel & Kaskel, Knox, and several house-decorating establishments, depend upon a specially selected class of patronage, rather than upon general popular support. There are no indications whatever that 23d street will not remain the most important cross-town street, so far as the retail trade is concerned for many years to come. All that can be said at present is that 5th avenue, instead of a certain part of Broadway, is getting the exclusive retail trade, and that there is a manifest tendency for the large department and clothing stores to move from locations south of 18th street. Such removals are in the air. They are constantly being rumored; and the chief reason they are not taking place more rapidly is the extreme difficulty of finding large and available stites elsewhere.

The removal of the cloak house mentioned, however, is interesting, not only because of the site, which has been vacated, but because of the new site, which has been selected. It is the first indication that 34th street might in time become another 23d street. The corners selected by R. H. Macy & Co. and Saks & Co. were not conclusive upon this point, because they were chosen rather because they were on Greely Square than because they were on 34th street. But here is an important clothing house to be established on the street itself—a street that hitherto has tended to be more of an overflow from 5th avenue than a copy of 23d street. Of course there will always be a difference; prices on 34th street are already so high, and property is so closely held that progress in that direction will necessarily be slow. Still it looks as if 34th street, more than 42d street, would in the end be occupied by large rather than small shops, and that the area available for such shops would be much larger than upon 23d street. The cream of that street is confined to two sides of the block between 5th and 6th avenues; but on 34th street, the subway should make desirable all property as far east as Park avenue, while in the other direction the Pennsylvania terminal should promote movement and activity, perhaps, as far west as 8th avenue. It is interesting that the width of the active strip becomes broader as business spreads further north. On 42d street, for instance, it is evident that the street will be teeming with active life and business from 8th avenue east to the Grand Central Station. Between 7th and 8th avenues on that street another big theatre is being built, and an apartment hotel is being planned. Fifty-ninth street also promises to be as busy as its width will allow all the way from the Circle to 3d avenue, perhaps, even farther east when the Blackwell's Island Bridge is built, and Queens is populated by 1,000,000 people. Moreover this widening of the strip, within which active business prevails, will be an excellent thing for trade. The length of the island, and the fact that Broadway is the only thoroughfare that runs across as well as up and down has always tended to hamper business by confining it within a narrow strip. In the future good sites should be attainable over a large area, and, in proportion to the possible trade, at a smaller price.

34th and 42d Streets.

THE text of the Appellate-Division decision as to "plottage," that is the value of a plot of ground irrespective of its value as lots, and of the value of the buildings upon it, contains some interesting points which could not, of course, be brought out in the small paragraph announcing the fact that the decision had been rendered, published by us two weeks ago. To understand this decision, it must be first borne in mind that some owners of two or more adjoining lots in the site of the 69th Regment Armory, Lexington avenue and 25th and 26th streets, contended before the Commission of appraisal that they were entitled to something more than the value of each lot and the building thereon; that by the fact of their being owners of contiguous lots which could be utilized as large blocks of land their properties had an additional value from that circumstance alone and that such additional value should be allowed in enhancement of the awards made them. This claim was rejected by the commission, but when their report was before the Supreme Court in Special Term, Justice Blanchard sustained the property-owners and referred the report back to the commission for amendment in the matter of plottage. The city carried the point to the Appellate-Division, who, by an unanimous decision, held that the commission were "not bound to award the separate value of each lot and the separate value of each building on each lot and then add a further percentage of value of land which cannot be used as the site of a single building without the destruction of structures already existing." At the same time the court held, "the owner is entitled to compensation for his property on the basis of an award for his most available use, to which that property can be put; but it is the best use to which it can be put in the form in which it exists at the time the property is taken or title is acquired thereto by the city." Practically, the Appellate-Division hold, and almost express it in words, that the owner of two or more contiguous lots separately improved, which may be taken for public improvement, has the option of electing whether his property shall be appraised as a plot available for special uses and improvements, or as lots with buildings thereon individually. When, however, an owner has presented a claim and received awards for each separate lot and each building on each separate lot, he is entitled to no more.

Williamsburg Bridge Approach.

STATUS OF THE MATTER—OPINIONS OF PROPERTY-OWNERS.

Great uncertainty exists in the minds of property owners and real estate brokers in the vicinity of Delancey st, Spring st and the Bowery as to what plan will finally be adopted for the approach to the New East River Bridge. The original idea of terminating the approach with a plaza, taking in the blocks between Clinton and Norfolk sts and allowing the traffic to find its way from that plaza through the various streets opening on it, seems likely to be abandoned, or at least greatly modified. On the 27th inst. there is to be a meeting held by the Board of Estimate and Apportionment to consider a suggestion to widen Delancey st from the plaza to the Bowery by taking off 75 feet from the south side of the street. A further extension to Elm st has been talked of, but no official action has as yet been taken on that matter.

Mr. Lewis, the engineer of the Board of Estimate and Apportionment, said that nothing had come to him officially concerning any change beyond that of widening Delancey st as far as the Bowery. When asked if he had heard it rumored that a part of the plaza originally planned was to be given up, he admitted having heard such a report, but insisted that the report had not come to him through official channels. He also said that no doubt eventually the approach would be continued to Elm st, and that he had calculated that it would be cheaper for the city to open a new street, 100 feet wide, through the middle of the block than to take off 75 or 100 feet from the south side of Spring st. By going through the block only eight houses would be removed to each block, while to widen Spring st would necessitate tearing down all the houses fronting on that thoroughfare.

Deputy Bridge Commissioner Robinson made much the same statement regarding the present status of the approach. "The whole matter," said he, "is in a tangle, and action is prevented because of inexcusable delays by the Board of Estimate. A comprehensive scheme for connecting the East River Bridge with the rapid transit system should be decided upon at once."

Borough President Cantor stated that definite and final action would be taken within a short time. "There are," he said, "a number of different plans being considered, but I am not able to state at present which one is likely to be adopted."

Property owners in the neighborhood affected by the improvement all favor the widening of Delancey st, but they are not of one mind as to what should be done beyond that. Mr. Cyrille Carreau favors widening the south side of Spring st as far as Elm st. In his opinion, this plan would benefit the taxpayers of the district more than would the plan of cutting a street through the block.

Mr. Hiram Rinaldo, of the firm of Rinaldo Bros., takes a view diametrically opposed to that of Mr. Carreau. He says to widen Spring st would be much more expensive to the city than to cut a new street through the block, and, moreover, that a street through the block would be much more direct.

For the information of those who are not acquainted with the facts the status of the bridge and approach, as it affects Manhattan, may be stated thus: As to the bridge itself, conditions indicate that it will be completed before the close of 1903. Land required for the Manhattan approach, East River to Clinton st, is in possession of the city. The Board of Estimate have decided to widen Delancey st 75 feet on the south side from Norfolk st to the Bowery. Regarding the intervening two blocks Clinton and Norfolk st, on November 14 of last year, the late East River Bridge Commission passed a resolution directing the Corporation Counsel to institute proceedings to acquire these two blocks for a plaza agreeably to the original plan. The Corporation Counsel forwarded the resolution, with a statement of the assessed valuations of the property to be taken, to the Board of Estimate, and nothing has been done since. The East River Bridge Commission ceased to exist January 1 last, as did also the old Board of Estimate, and these facts may account for the apparent muddle that exists as to the condition of affairs.

New Banking Facilities.

DISTRIBUTION OF THE RECENTLY ESTABLISHED BANKS, TRUST COMPANIES AND BRANCHES IN GREATER NEW YORK.

Not long ago there appeared in the Record and Guide a short article commenting upon the number of branch banks being established in this city, and the probable effect they would have upon real estate and business. Since then we have been interested in getting a complete list of banks, trust companies, and branches of the same, which have, since Jan. 1, 1901, been authorized to do business in Greater New York.

Mr. Frederick D. Kilburn, Superintendent of the State Banking Department, has kindly co-operated with us in this matter, and compiled the table which is presented herewith. During last year and the first four months of 1902 there have been authorized to conduct business in this city no less than nine State banks, eighteen branch banks, four trust companies and three branches of trust companies, making for the period a total of thirty-four. The aggregate capital of the thirteen new institutions amounts to $4,400,0000, while of course the parent banks from which the numerous branches have sprung are much more heavily backed. During the period under consideration not only have the pioneers in the branch bank movement, the Corn Exchange, and the Produce Exchange banks continued the extension of their business, but, it will be noted, other well-established banks are following their example in opening branch houses wherever a favorable opportunity is presented.

Seven of the new banks are situated in the Boroughs of Brooklyn and Queens, the remainder being within the confines of Manhattan. Their distribution is found to be quite general; a number are, or are to be, located along the length of Broadway. Others are to be found on the growing business thoroughfares uptown, and a goodly number will be met with in sections of the city where expensive residences and high-class apartments are the rule.

These banking places, occupying, as they must, quarters in first-class buildings, at once create a demand for suitable structures in sections where banks are likely to be needed. It will at once be recognized that they form a highly desirable class of tenants, and even if the average rental paid by the thirty-four institutions recently authorized should not exceed $3,000 a year, which it probably does, the influence they would have upon real property would be considerable, and well worth reckoning with. Not only are such interests beneficial to the buildings immediately occupied by them, but to a lesser, but still quite perceptible degree, their desirable influence is felt upon surrounding properties.

L'Art Nouveau.

The leading feature of the June number of the "Architectural Record" is an exposition and explanation from its chief exponents in the land of its birth of the principles underlying a school of art that for convenience is called, retaining the language of its founders, L'Art Nouveau. As the elements of this new movement are forcing themselves into all decorative lines, it behooves all architects, builders and others interested in the interior finish of buildings to acquaint themselves with them, and they cannot do this better than by perusing the articles that appear in the magazine referred to. It will re remembered that the work of the aesthetics, considered eccentric, if not ridiculous, at its inception, finally influenced design in all lines. In the same way, the principles of the "new art" are taking their place in all decorative designing which includes the things necessary to interior finish, and therefore the builder ought to know what they mean and how to estimate what their varying effects will be when practically applied.

Builders, read Wants and Offers. See page 1141.

Concrete Fireproofing.

Engineers, contractors and dealers agree that the use of concrete for fireproofing is extending not only in Greater New York, but outside the city. Within the limits of Manhattan the building laws have done much in the past year toward increasing the demand for the material because of the greater strength and security required in new structures. Elsewhere the example set here is having a beneficial effect, and there is a constantly growing request from other parts of the country for the introduction of the systems that have been tested and have given satisfaction in this city.

Since it has been raised to the level of a distinct business by the specialists who took it up for scientific study and practical treatment, fireproofing has become of the first importance to the man who intends to put up a building of any size. Naturally, he seeks the greatest degree of efficiency at the least expense, and it is exactly to meet these requirements that the experts have labored most faithfully and successfully. The engineer who can so design as to combine his steel and concrete construction, drawing most heavily upon the cheaper material without losing in strength or protection, gets the most business. He must have inventive skill, as well as practical knowledge, of the fluctuating values in both fireproofing and steel construction in order to succeed in these days of sharp competition.

It is observed that while concrete fireproofing is not used in the higher office and commercial building that have been built down-town this year, nor in those now under way, it is entering into the construction of many tenements, apartment houses and hotels, including buildings that extend their cornices a dozen stories into the air. For floor construction and for inside partitions, the material is in great favor for these kinds of structures, which make up a large proportion of the total building operations. The contracting firms who do their work believe that they have solved the problem of securing maximum efficiency at the lowest possible cost. They claim that the monolithic concrete-metal floor arches now being built are superior to any other in lightness, strength and in fire-resisting qualities. In support of their assertions, they point to the results of the tests made by the Building Department of the city last year.

Other materials have their admirers and advocates, but none can deny that the concrete men have made wonderful progress and are likely to make still further improvements. The principle of steel and cement combination, indeed, or re-enforced concrete, has developed so far as to be applied to the building of the outside walls; but that is outside the line of the fireproofing men. The great advantage of concrete for floors and partitions is its pliability. The workmen do not find pipes or drains any difficulty. The shape or size of rooms make no difference in the work. The concrete is laid, it covers all metal, presses tightly against the beams, and when it sets it becomes one solid mass, which, as experience proves, grows stronger from year to year. The material used to-day is not affected by sudden changes in temperature, stands the pressure of water as well as the heat of fire, and prevents the imbedded metal from fusing if intense heat is applied.

Concrete may be laid by ordinary labor, and this is an important contributing cause of its cheapness. For the coarser part of the mixture, crushed rock, pebbles, sand and cinders have been used with results entirely up to expectations. Lime is everywhere available, and Portland cement, now made in the United States, is equal to the best of foreign lands. The cement men, by improving the quality of their product, especially by giving it sufficient age for the lime to slack fully, are entitled to much credit for the rapid strides in concrete construction. In return, the demand for cement is greater than ever before, prices are higher than they were last year, and are maintained stiffly. The output is quite generally sold for weeks, and in some cases for months ahead. Jobbers and dealers declare that never within their recollection has there been a call so much in excess of the demand as at present. This is the case, although the capacity of the manufacturers has been vastly increased in recent years. Many new works have been built, and this year some old plants, long idle, have started up again.

Better cement and better fireproofing signifies better and safer buildings, especially for tenement, hotel and commercial purposes. These are objects worthy of all the energy and thought that the trade can give to them.

Questions and Answers.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

Kindly let us have your opinion on the following: A saw agent's to-let bill on dwelling house, and asked occupant for privilege to inspect same; was refused without permit from agent. A applies to agent to know if the property is also for sale. The agent informs A that the owner will sell, and issued permit to A to inspect same. The tenant learns from A that he (A) would buy the property, and takes A direct to owner and closes the deal. The owner refuses to pay agents their commission, claiming the tenant sold the property. Are the agents entitled to a commission?

Answer.—Yes.—Law Editor.

AGENCY.

To the Editor of THE RECORD AND GUIDE:

An agent is asked by an owner of a house which agent has rented to a party to attend to the repairing of the plumbing. Agent notified the plumber to fix the same, and receives bill, which bill owner refuses to pay, in spite that the plumber has done the repairing. Is the agent responsible for the bill? The plumber is threatening the agent to sue him if he does not get his money. This plumber has done work previously and after this particular work for owner, and was perfectly aware for whom the work was done.

Answer.—The agent is not liable for the plumber's bill.—Law Editor.

LANDLORD AND TENANT.

To the Editor of THE RECORD AND GUIDE:

A sells a house to B. B finds that C is a tenant in said house, occupying the second floor, holding a lease on same from Oct. 1, 1901, to April 1, 1903. C admitted before B and D that same was signed on a Sunday. B saw and read said lease, and same was not executed or acknowledged before a notary public or recorded. Would B have action in said matter, and how would he proceed?

Answer.—C is entitled to hold the premises until the expiration of his lease if he pays his rent.—Law Editor.

POWER OF ATTORNEY.

To the Editor of THE RECORD AND GUIDE:

I desire to ask if a power of attorney can be given by one person to another and so written and executed that the attorney will have the legal right to sign the name of the mortgagee in a suit in foreclosure covering real estate, or in any and all other business transactions of whatsoever kind or nature that the party giving the power to an attorney chooses to authorize him to perform?

Answer.—Whatsoever a man can do, he can give another a power of attorney to do for him.—Law Editor.

WHEN DO TAXES BECOME A LIEN?

To the Editor of THE RECORD AND GUIDE:

Will you please inform me when, under the recent law, taxes become a lien on the property in this city?

Answer.—On the first Monday in October.—Law Editor.

Obituary.

THE VERY REV. E. A. HOFFMAN, D. D.

The Very Rev. Eugene Augustus Hoffman, D. D., Dean of the General Theological Seminary, died suddenly on Tuesday on a train while returning to this city from his vacation in Canada. He had been salmon fishing at Restigouche, and on Monday was seized with heart trouble. At his own request preparations were made to bring him home. Dean Hoffman was seventy-three years old, and had been at the head of the seminary for twenty-three years. He was reputed to be the richest clergyman in this country, and perhaps in the world. His fortune was inherited from his father, Samuel Verplanck Hoffman, who for many years was a Broadway merchant, and his mother, who was a Miss Storm. Samuel Verplanck Hoffman's estate, which was largely composed of city realty, was divided equally at his death, in 1880, between his two surviving sons, Eugene and Charles Frederick Hoffman. The latter, who died five years ago, was the rector of All Angels' Church. The real estate the two sons inherited was valued then at several millions, and in addition they had their mother's fortune. In recent years Dean Hoffman through shrewd manipulation added a great deal to the value of his share of the estate.

The more important real estate owned by him at the time of his death consisted of Nos. 79 and 81 Leonard st, 54x100; Nos. 131 to 135 Duane st; No. 50 Warren st; No. 120 Chambers st; three properties in the grocery district; the southwest corner of Broadway and Warren st; Nos. 105 and 107 5th av, an 11-sty building; Nos. 122 and 124 5th av; Nos 3 to 5 West 17th st and Nos. 2 to 16 West 18th st, an 11-sty building, covering about seven lots; Nos. 258 and 260 5th av, an 8-sty building, on plot 50x100; the Hoffman Arms, at the northwest corner of Madison av and 59th st. Dean Hoffman, Mrs. E. T. Gerry and the estate of Dr. Chas. F. Hoffman owned, with the exception of five or six lots, the entire block bounded by 42d and 43d sts, 5th and 6th avs. This latter property has been owned by the family since the early '50s.

The Accident to Major Shaler.

To the Editor of THE RECORD AND GUIDE:

Dear Sir: I call your attention to the accident which befell Major Shaler while accompanied by Chief Engineer Parsons, of the Rapid Transit Commission, on a tour of inspection in the Park av division of the rapid transit route. This accident, as all the world knows now, was caused by a rock falling from the roof of this rock-cut, striking and crushing Major Shaler. Now, this is to call the attention of taxpayers to the method of construction which permits (through a desire for economy?) a failure to properly protect and insure against crumbling rock either side wall or roof. How easily and surely such an accident could be prevented by a brick arch. Who can insure without such protection against frequent occurrences of this kind? It is but a few years ago that a rock tunnel at West Point fell, trapping a train. The people will become the owners of this railroad when completed. The people will travel by this railroad when completed. Shall they be under a constant menace through a desire to cheapen the construction? I appeal to all builders to say if my contention for a brick arch in all rock cuts is not justified.

Very respectfully,

Wm. K. Hammond.

Gas Fuel as a Housekeeping Factor.

Increased prices of coal have driven home the economy of gas cooking and made gas converts of a great number of housekeepers who have not before used gas in the kitchen or have only had hot plates.

Down on the great East Side of New York city the general prosperity has also increased, and with the greatly improved tenement house conditions a big field for gas range activity is opening.

In this section kitchens are increasing in size, and steam-heated apartments are being erected, facilitating the introduction of gas for cooking purposes. The East Side housekeeper does her own baking usually, and has largely patronized the public bake-shops. The convenience and economy of gas-oven baking is appealing very strongly to these families. Conditions in that section are ripe for a big work. Throughout the city the general attitude toward gas cooking is more healthy. Single oven gas cookers are appealing to a big population of working families housed in dwellings insufficiently piped, also to the small family. New York consumers are being individually familiarized in their own kitchens with the use of all gas appliances by visiting instructors, resulting in largely increased use of ovens.

West Side Dock Improvement.

The authorization by the Board of Estimate yesterday of condemnation proceedings to acquire the property between 18th and 23d sts needed for the North River front improvement gives warrant to the report that the Dock Department will begin work at the northerly end of the section between Bloomfield and 23d sts. It is also said that the three or four proceedings already begun to take property at the southerly end will be abandoned and new proceedings instituted. It will be remembered that at the last session of the Legislature the Dock Department procured the passage of an act (Chap. 611, Laws of 1902) by which, as regards property situated between the southerly side of Bloomfield st and the northerly side of West 23d st, the Department was relieved from the necessity of first attempting to arrive at an agreement with owners of such property before instituting condemnation proceedings. The act also empowers the Sinking Fund Commission, in proceedings thereafter brought, to fix a time by resolution when title shall vest in the city after the oaths of Commissioners of Estimates have been filed.

THE TENEMENT HOUSE LAWS.

On Tuesday next there will be ready for delivery a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses. In size and character, it will be a companion volume to "The Building Laws of Greater New York," and will contain the alphabetical cross-indexes which have proved so valuable.

The price of the book bound in cloth will be $1.50, and orders may now be sent to the Publication Office, Nos. 14 and 16 Vesey St., New York City. This will be the standard book on the subject.

Realty League.

There was incorporated recently with the Secretary of State an organization having for its title the Realty League of New York and for its object the mutual protection of owners of real property throughout the entire city of New York. It will take up the grievances of owners with the public authorities, corporations, etc., and speaking, with a strong membership back of it, with authority and doubtless with success. Its representative and influential character is evidenced by the names on the list of directors, which is as follows: C. W. Baldwin, Charles Buek, J. Clarence Davies, John F. Doyle, Louis Ettlinger, Frank R. Houghton, Frederick Wm. Jockel, Charles W. Kirby, Judson Lawson, John P. Leo, Alfred E. Marling, A. F. Mathews, Paul Mayer, Carlisle Norwood, Charles F. Mr. Borgstede has many desirable parcels for sale, improved and unimproved. His telephone call is 19—Melrose.

OLD AND NEW TENEMENTS.

T. W. Ringrose, architect, in speaking a few days ago of the effect of the new Tenement House Law upon the volume of building in The Bronx, ascribed the decrease, not to the law itself, but to the failure of owners to properly comprehend its provisions. "It seems to be the commonly accepted opinion," said Mr. Ringrose, "that under the new law so much space must be given to light and air shafts that the apartments must necessarily be too cramped to rent readily. This is not true. Under the old law 65% of the lot could be built upon, which percentage could be increased to 75% at the option of the Commissioner of Buildings. Under the new law, 70% is available, and plans can be prepared which will allow practically as large house room as under the old law and assure much more desirable quarters. In my opinion, when the new tenement buildings are plentiful, the demand for them will be so much greater than for the old buildings as to make a material difference in the rental values."

The World of Building

In the Field of Labor.

THE MASTER PAINTERS BECOME AGGRESSIVE—UNION WORK ON CITY JOBS.

The fight between the Association of Interior Decorators and Cabinet Makers of the City of New York, composed of employers, and the Amalgamated Painters and Decorators has come to a point where the employers express a firm determination to never again officially recognize that union. It is believed that the employment of members of the Brotherhood of Painters, Decorators and Paperhangers of America will make this stand practicable. This organization has its charter from the American Federation of Labor, and, consequently, cannot be objected to by the United Board of Building Trades of New York and Vicinity, which controls the workmen's end of the building trades.

A prominent member of the bosses' association, who will not permit the use of his name, says: "The action of the Amalgamated Painters and Decorators in forcing upon the master painters conditions which are absolutely unreasonable has brought us to a point where we must either rectify these conditions or go out of business. We propose to rectify the conditions. There are in New York, at the very outside, 5,000 members of the Amalgamated Painters and Decorators and about 20,000 non-union painters. The union wages are $4 a day for all classes of painters, and the better class of master painters—those who get the contracts on the big new buildings—are compelled to pay union wages, while the great number of small contractors, who are in no danger of being brought to terms by the sympathetic strike, pay anywhere from $1.50 to $2.50 per day and work their men as much as ten hours per day. This puts the larger contractor in a position where he is absolutely unable to compete for any but the high-class work. The union has compelled, also, the payment of fares and board on out-of-town jobs, which makes it impossible for us to come within 75% of the bids of the local contractor.

"On June 6 a resolution was adopted by the employers' association protesting against the conditions which the journeymen have created, and notifying the Amalgamated Painters and Decorators that on and after June 16 the rate of wages for varnishers, finishers and polishers in New York city would be $3 per day for outside and inside work, and that the employers reserved the right to employ local craftsmen on all out-of-town wrok at the rates there prevailing. The Master House Painters' and Decorators' Association have also notified the Amalgamated Painters and Decorators that they will enter into no agreement with them at present. The Brotherhood of Painters, with whom we propose dealing in the future, is an organization of national scope, which has to the present time left New York city to the Amalgamated Painters. Within thirty days, however, we believe that its members will be ready to handle all our work, and we trust to be able to bring the conditions governing our industry to a point where a fair competitive chance will be given to all. The wage which the Amalgamated Painters demand is $4 a day for varnishers and plain painters and $4.50 per day for decorators and guilders. The Brotherhood of Painters have a scale of $3 per day for varnishers, $3.50 for plain painters and decorators and a higher wage for guilders."

Jas. P. Archibald, treasurer of the Brotherhood's New York city District Council, said: "When the Brotherhood's union decided to enter into active competition for New York city work a proposition was made to the Amalgamated painters that any of their members in good standing should be admitted to our union. This offer was rejected. Then we offered to recognize an Amalgamated card in any city in America, provided the Brotherhood card received recognition in New York city. This propositiou was ignored. The Brotherhood of Painters has its charter from the American Federation of Labor, whereas the Amalgamated Painters are an organization independent of all other bodies. We have been assured by the Board of Building Trades that no action of any kind will be taken by that body for or against either of the painters' unions, and we apprehend no trouble in bringing about our complete establishment in New York city."

Because of the recent heavy influx of Italian workmen, the marble cutters have for the present closed the membership books of their union. No foreign journeymen will receive admittance until the union men who are at present unemployed find work. Applicants for membership are advised to go to Connecticut, where stone yard work is said to be abundant.

The trouble existing between the hand stone cutters and the machine men was explained this week by a delegate of the union of the former as follows: "Stone cutting is a trade which cannot be mastered in less than three years' apprenticeship. In order that the work may be fully understood by our helpers, we wish them to work on the machines during the last three months of their apprenticeship. This the machine men refuse to allow, through a fear, probably, that the stone cutters will gradually absorb the machine men's work. A machine man can become expert at his work in a month's time, and so can hardly be called a skilled mechanic. We think our apprentices should be allowed to learn the machine work, and have reason to believe the bosses agree with us."

A delegate of the plumbers' union stated last week that the plumbers had decided to demand an increase in wage from $3.75 to $4.25 per day, to go into effect on July 1. Among the other provisions of the agreement which the plumbers wish the bosses to sign are those calling for a half day on Saturday and a further limitation of the number of plumbers' helpers. Notices of the demands have not as yet been sent the employers.

It would appear that the efforts of Central Federated Union to have an ordinance passed by the Board of Aldermen requiring that "all city employees who are engaged in callings represented by organized labor shall be members of the unions of their respective craft or trade" would be unsuccessful. At a meeting of the Board of Aldermen held this week a resolution requesting that the Legislature amend the labor laws to that effect was introduced by Alderman Doull. Corporation Counsel Rives has, however, rendered an opinion on the constitutionality of the proposed enactment, which will in all probability end the matter for the present. He says, in part: "The proposed legislation is unquestionably bad, and your board has no authority to pass it." The precise point, said Mr. Rives, has not been decided in a New York court, but in Illinois a case identical has been decided, where the Board of Education in Chicago agreed to provide in all its contracts that none but union labor should be used. Such a decision by a public corporation was held to be illegal on the ground that it was a discrimination in favor of one man over another and would have a tendency to increase the city's expenditure.

Material Market.

There are a number of lines in which orders have been getting heavier, and a better feeling generally prevails. The earlier work of putting up the structural steel and brick has been completed upon many buildings, which were delayed by the scarcity of steel, and now the builders are calling for the trim, the plate and window glass, tile, laths, cement, plaster, lime and paint. There is a remarkable scarcity of Portland cement. Shipments of laths that came in this week were all sold, and there are none in the yards. State lime is scarcely to be had. Hardwood lumber manufacturers are behind their orders. On the large buildings other kinds of lumber are used mostly for the temporary work, but it takes as much of the wood for this purpose as was required in the old days for the permanent beams, joists, partitions and flooring. There are few changes in quotations, the most noticeable being in window glass.

Members of the Building Material Exchange have received the twentieth annual report of the president, submitted for the year ending in April by De Witt Clinton Overbaugh. The document is handsomely printed in booklet form, and will be a valued addition to the archives of the association.

IRON AND STEEL.

Orders for structural material are mostly for small lots for immediate delivery or for emergencies, because the output has been sold so far ahead that large orders for prompt delivery cannot be taken. The vast increase in imports has relieved the scarcity slightly. The coal strike has aggravated the pig iron situation and producers are worried as to materials. A gratifying feature of the iron and steel trade is the general signing of wage agreements with the amalgamated men, which assures a continuance of work in the mills all summer and for the remainder of this year.

Some conditional contracts for steel are made, notwithstanding the unusual activity in trade, and while the buyers are not bound to take the steel when the time for delivery comes, manufacturers are not uneasy, as they expect the present immense demand to continue through next year.

Material for next year's delivery, amounting to 1,000,000 tons, has been sold by the United States Steel Corporation.

New York investors are largely interested in a syndicate formed by Pilling & Crane, iron commission merchants, of Philadelphia, in order to start operations at the Pottsville (Pa.) Iron & Steel Works, which have been idle for five years.

Prices of skelp are about $2 per 100 lbs. for steel, $2.25 for iron skelp at Pittsburg, and they may go higher, as sales have been

heavy and some of the producers are practically out of the market.

Steel billets have sold in small lots as high as $34 a ton, Pittsburg. Basic open-hearth steel is held at $36 or higher.

Steel plates are selling at sharp premiums over the recent official prices.

A number of the hot mills of the American Tinplate Company and the American Sheet Steel Company are reported idle because of repairs, and perhaps for other reasons.

Quotations on pig iron for immediate delivery are the same as last week, but on future shipments, which have been $1 to $2 lower than spot iron, are rising to the level of the latter. Some Northern iron, No. 2, has been sold as high as $22.50 for 1903 delivery.

ZINC, LEAD, TIN, ETC.

Representatives of lead producing properties in the Northwest have been in New York for several days in conference with officers of the American Smelting & Refining Company for the purpose of adjusting prices and governing production for the coming year. There are also negotiations for placing the output of certain districts in Idaho with the smelting company.

John Stanton estimates that consumption of copper in this country is now 50,000,000 lbs. per month, as against 35,000,000 lbs. per month a year ago.

Zinc ore brought $35 per ton this week at Joplin, a clear advance of $1. Lead ore here brought $22.25 per 1,000 lbs. Last year's prices, in the corresponding week, were $28 for zinc and $23.75 for lead.

Spelter is said to be in heavier demand than ever before in the history of the country. Deliveries are behind contract dates.

Sheet zinc manufacturers are behind in their orders.

Tin is not in such urgent demand as it was last month.

There were 5,521 tons of copper exported from this country in the first half of June.

BRICK, CEMENT, LIME.

Common brick are selling steadily at unchanged prices. For fronts gray and reds are most in demand. The standard size of a light gray is being used to a great extent in new schools in Brooklyn. The Roman sizes are also in brisk demand.

Talking of the unprecedented demand for Portland cement, Charles Murtagh, of Murtagh & McCarthy, said: "No large orders for immediate delivery can be taken. The fact that the government did not receive a single bid in response to its advertisement for 10,000 barrels of cement for the Brooklyn Navy Yard was significant of the attitude of the dealers. There were changes in the specifications, and some of the requirements may have been such as keep some dealers from bidding, but if the supply was at all adequate to the demand the government would have received some responses." A jobber in the Building Material Exchange said that it would be impossible to fill an order for 500 barrels immediate delivery. Agents of railroads have been going to all the yards trying to make purchases, and they are having much trouble in getting supplies for the work upon bridges and culverts. The Delaware, Lackawanna & Western and the New York Central railroads have been among the most eager buyers of late. Some of the largest Western buyers are in New York to buy cement. Usually the manufacturers have been obliged to send their agents out West to make sales.

WINDOW GLASS.

At a meeting of the National Window Glass Jobbers' Association in New York this week the discount was cut down from 89 to 88.5%. For some time the jobbers have been complaining that there has been no profit in the business for them. They say that the present advance is reasonable, and that there is even cause to expect another advance soon. It is stated that the smaller dealers are short on stock, and that they will be obliged to buy largely, as the time is coming when the new buildings of this year must be inclosed.

A circular has been issued calling upon all independent and co-operative glass companies to unite in the Federation Co-operative Company. According to the plan, the factories are owned individually, the manufacturers paying annually into the company $300 for each pot. It is said that the movement is caused in part by alarm at the possible effect of the new window glass blowing machines of the American Window Glass Company. Manufacturers and others are awaiting with some degree of eagerness further information as to the practical working of these machines.

H. L. Dixon, of Pittsburg will build a 15-ton continuous tank for the new prismatic glass works at Morgantown, W. Va. In the new process to be used here, after the cast is rolled upon a table in the usual way, the table moves forward beneath a mold or iron plate having a grooved lower surface, against which the hot sheet of glass is pushed.

It is stated that the American Window Glass Company offered $125,000 for the Bauer plant at Eaton, Ind., and the offer was refused.

PAINTS.

Paints have been selling briskly, with firm prices. Grinders are demanding deliveries on current contracts of white lead on a heavy scale. Domestic manufacturers of zinc oxides are running night and day to fill orders. Imported zincs are in good demand.

Distribution of pigments in dry colors continues especially active, consumers calling vigorously for deliveries.

LUMBER.

Records of the National Hardwood Lumber Association show that about 1,000 carloads are shipped daily by the members. The average shipping charge per car is $75. W. H. Hurlbut, head of the new traffic branch, has absolute power of routing all these shipments, and it is expected that by a discreet exercise of his authority he will get better railroad terms for the members.

Prices of poplar were advanced $1 per thousand at a meeting of the Hardwood Manufacturers' Association in Louisville. A committee was appointed to procure statistics on the oak timber now in yards, and if the supply be short, particularly in dry stock, prices are likely to be advanced from $1 to $3 per thousand feet within the next six weeks.

Building News.

MERCANTILE.

Product and Appliances.

The advent of the remarkable Masurite, the new explosive, which under no circumstances or conditions can explode unless at the will of the operator, will not only create confidence in the minds of citizens whose homes are in the vicinity of excavations for buildings or tunnelling, but in mining operations. We do not think that the recent disasters at Tennessee, where about two hundred and thirty men lost their lives, could have been possible with Mr. Masury's explosive. In fact, we are sure of it. The proofs recorded in our issue of the 7th were conclusive.

* * *

Any trust or corporation which permits the lives of human beings to be at the mercy of an unsafe explosive ought to be investigated and compelled to use what is absolutely safe under all circumstances, or yield up their business and undeserved gains. Invested interests ought not to stand in the way of public safety or scientific advancement. This is an age of great things, and Masurite is certainly one of them.

The soft coal nuisance is another illustration of the determination of some companies to disregard the public,or facts which prove that such things ought not to be. Electricity would solve the problem for the Manhattan Elevated railroad, or the experts of the American Stoker Company might prove to the officials that loading the air with the choking masses of carbon is false economy. This surely ought to be attractive to Mr. Russell Sage.

At last we learn with some degree of satisfaction that the General Electric Company is investigating the possibility of a practical electric fire pump. We repose implicit confidence in the power of the General Electric Company to do this, and in other ways to save the public from the coal smoke nuisance.

A portable watchman's clock, which could not be tampered with, has long been a desideratum. It is claimed for the Newman portable clock that it can in nowise be tampered with, and moreover has many advantages over any other clocks or watches used for the purpose. If it has all the advantages claimed for it—why, it is a wonder.

Paul E. Richter, a mining expert, is about to patent new methods of refining and hardening steel without adding to the cost. We are not permitted to publish details until his patents are granted, but Mr. Richter may be found at his beautiful hotel, the Seabourne, at Coney Island Point. This hotel has been recently purchased by him, and is referred to on "Wants and Offers" page.

A practical automatic fire alarm for the special protection of stage properties will shortly be placed at the disposal of theatres by Edward Morey Bell, the leading man at Mr. Proctor's theatres. That an actor should be an inventor is interesting, and doubly so when we know that he is a coming star. His "Captain Swift," at the Fifth Avenue, will be the event of the coming week in New York city.

Of Interest to the Building Trades.

Frank Straub, architect, No. 335 Broadway, would like samples, devices and catalogues.

Heins & La Farge have moved their offices to No. 30 East 21st st.

A. A. Gavigan, mason and general contractor, formerly of No. 39 East 42d st, has removed to the Townsend Building, No. 1123 Broadway.

American Parquetry Co. have issued an attractive pamphlet, which, by numerous excellent colored designs, very faithfully shows the color and other effects of their specialties. The designs are accompanied by descriptive matter, and the pamphlet can be obtained on application to the company, at No. 503 5th av.

Howell & Lawrence, proprietors of the Kalamein Iron Clad Wood Works, Nos. 422-426 West 15th st, have been awarded three of the most important as well as the largest contracts for metal covered fireproof doors and windows—Hall of Records, Saks' Building and Simpson-Crawford Co.'s new store. They have added 1,000 feet more floor space to their factory.

"LIMOID."

"Limoid" is made from a pure lump lime, thoroughly slacked, screened, bolted, hydrated and packed in powdered form in bags, ready for immediate use by the addition of water in sufficient quantity to form a paste or putty. Its principal characteristics are its readiness for immediate use without the slightest danger of air slacking or pitting on the walls, its perfect seasoning, requiring less plaster and hair than ordinary lump lime putty, and its ability to keep for six months in bags in a dry place without loss by air slacking or deterioration. It is being manufactured and put on the market by the Charles Warner Company, of No. 80 William st, New York, Wilmington (Del.) and Philadelphia, who believe that it will revolutionize the present method of handling lime for building purposes, owing to the economies and advantages resulting from its use, the facility of handling, doing away with the old-fashioned methods of slacking and the dangers of air slacking and pitting on the walls; and they further claim that "Limoid" will be to the lime business what Portland cement has proven to be in the cement business, for "Limoid," being a pure lime putty, thoroughly prepared, can be used for any purpose for which ordinary lime putty is now used, such as brick mortar, plastering, granulated finish, float finish, white finish, etc.

GLASS BRICKS AND STONE WINDOWS.

Jules Henrivaux, who was formerly director of the great French glass factory at Saint-Gobain, has become the advocate of a new building material, for which he anticipates sooner or later a prodigious demand. It is a brick made of what he calls stone-glass. The strength of it is not surpassed by any of the building stones, for it can sustain as much weight as a granite block. One of the stone-glass bricks has been found irresistible to blows with a hammer. Another advantage is that colors of all varieties can be imparted to the brick, and will enable it to be used for ornamental purposes. According to M. Henrivaux, glass can be employed in buildings from the foundations to the roof. Stone-glass is also applicable to tubes for air, gas, electric wires, etc. It is needless to say the use of glass bricks has been recommended for many years, but it has never been attempted except on a limited scale. It is remarkable that, while glass is suggested to serve instead of stone and brick, thin stone has come into popularity in Germany as a substitute for glass in factory windows.

THE BUILDERS' LEAGUE.

At the annual meeting of the Builders' League of New York, held the 12th inst., the then present officers were re-elected to succeed themselves for the current year. The reports of the various committees as to the work done in promoting the growth of the organization were very satisfactory, and a balance of nearly $2,000 in the treasury and all bills paid was the best evidence of its financial standing. At this same meeting plans were discussed to increase the use of the League's facilities during the coming year, and a series of entertainments were arranged for which will increase the social features of the organization. The proposition to increase the initiation fee to $25 was laid over, but will undoubtedly be adopted at the September meeting.

ELEVATOR SHAFTS.

Section 96 of the Building Code has been amended to read as follows; words quoted are new and matter in brackets is omitted:

Section 96—Elevator Enclosures. All elevators hereafter placed in any building, except such fireproof buildings as have been or may be hereafter erected, shall be inclosed in suitable walls of brick or with a suitable framework of iron and burnt clay filling, or of such other fireproof material and form of construction as may be approved by the Department of Buildings, except that the inclosure walls in non-fireproof buildings "over five stories high," used as warehouses (stores) or factories shall be of brick. If the inclosure walls are of brick, laid in cement mortar, and not used as bearing walls, they may be eight inches in thickness for not more than fifty feet of their uppermost height, and increasing in

thickness four inches for each lower fifty feet portion or part thereof. Said walls or construction shall extend through and at least three feet above the roof. All openings in the said walls shall be provided with fireproof shutters or fireproof doors, made solid for three feet above the floor level, except that the doors used for openings in buildings intended for the occupancy of one family may be of wood covered on the inner surface and edges with metal, not including the openings in the cellar, nor above the roof in any such shaft walls. The roofs over all inclosed elevators shall be made of fireproof materials, with a skylight at least three-fourths the area of the shaft, made of glass set in iron frames. When the shaft does not extend to the ground the lower end shall be inclosed in fireproof material.

HOW TO MIX CONCRETE.

To obtain perfect results in concrete one should have freshly ground cement of some well-known and established brand, coarse, sharp, clean sand, free from all foreign matter, and hard stone crushed or broken to a size that will pass through a 2-in. mesh, screened and washed free from dust. Find by actual test how much cement it takes to fill the space in the sand. When the sand and cement is thoroughly mixed, it should occupy the same space that the sand did before the cement was mixed with it. For instance, if one barrel of cement and two barrels of sand are the proportions, when the cement and sand are thoroughly mixed dry they should just fill the two barrels. The same rule applies to the broken stone. The sand and cement mixture should fill the space in the broken stone. This must be found by actual test, but they will generally be found to be 3 parts of broken stone, 2 parts of sand, 1 part cement. The next question is how much water is needed. This can be determined beyond dispute in the following manner: Thoroughly mix with water so that when the mixture is put in place in layers of 6 inches and hammered with a paving hammer, the water oozes to the surface without any surplus to run off. This is perfect concrete with all the above conditions filled. This is a leaf from an experience of thirty-five years with concrete in all conditions.—Stone.

Legal Decisions.

Mechanic's Lien—What Notice is Insufficient.—A notice of a mechanic's lien stated, "(3) The name of the person by whom the lienor was employed, or to whom he furnished, or is to furnish, materials is J. Pacheteau, and the person with whom the contract was made is J. Pacheteau. (4) The labor performed or to be performed is mantels and fixtures, and the materials furnished or to be furnished, and the agreed price or value thereof is four hundred and seventy-five dollars ($475). (5) The amount unpaid to the lienor for such labor (or) and materials is four hundred and seventy-five dollars ($475). (6) The time when the first items of work were performed (or) and materials were furnished was October 5th, and the time when the last items of work were performed (or) and materials were furnished was October 18th." Held, that the notice did not comply with Section 9 of the Lien Law (Laws of 1897, Chap. 418), and that the filing thereof did not create a lien.—(Bradley & Currier Co. vs. Pacheteau, 71 App. Div. 148.)

Foreclosure—Rent, as Between a Receiver of the Rents and a Tenant Who Had Paid Them in Advance—Contempt.—A tenant of mortgaged premises is not guilty of contempt in refusing to pay rent to a receiver subsequently appointed in an action to foreclose the mortgage and therein declared solely entitled to the rents pendente lite where the tenant, merely to accommodate the owner of the equity of redemption and not collusively, has paid him upon his receipt therefor five months' rent in advance by promissory notes, all of which the said owner had procured to be discounted and had converted into cash before the receiver's appointment.—(Krakower vs. Lavelle, 37 Misc. 423.)

Specific Performance—Title by Release from State Under Claim of Escheat—Adverse Possession.—A vendor of real estate whose title is based on a release from the State under a claim of escheat assumes the burden in an action for specific performance against the vendee of proving that the former owner died intestate and without heirs, and these facts must be established beyond a reasonable doubt. In 1860 one J. F. was the owner of the premises in question; he died intestate in 1865, leaving surviving his widow, who obtained letters of administration from the Surrogate's Court, stating in her petition that the only next of kin of her deceased husband was a sister, E., who was last heard of about fourteen years previously, residing in Scotland. In 1867, by an act of the Legislature, the rights of the People of the State of New York were released to the widow, subject to the claims of heirs at law, and she occupied the property until her death, in 1897. Plaintiff, as a substituted trustee under her will, contracted to sell the premises to the defendant. Held that the latter was justified in refusing to accept the title rendered. In such a case, there can be no adverse possession.—(Fowler vs. Manheimer, Supreme Court, App. Div., N. Y. Law Journal, March 13, 1902.)

Trade fixtures—right of removal. The right of a tenant to remove fixtures which are distinctly realty is in the nature of a licence, and must be exercised while the tenant is in possession under the lease that grants it. Taking a new lease without reserving the right is deemed an abandonment thereof. The right of removal is not, however, lost by the taking of a new lease, without reserving such right, as to trade fixtures, not distinctively realty, designed to retain their character as personal property and capable of removal without material injury to the freehold. (Supreme Court, App. Div., N. Y. Law Journal, March 20, 1902.)

Mortgage Foreclosure—Right of a Receiver to Rents Where the Mortgagor, After Giving the Mortgage, Leased the Mortgaged Premises and Received Rent in Advance.—A person who, after the recording of a mortgage containing a provision in case of default thereunder for the appointment of a receiver of the rents and profits of the mortgaged premises, takes a lease of the premises for a year at a time when the mortgagor is not in default under the mortgage and pays five months' rent in advance, does so at his peril and subject to the right of the mortgagee, upon the mortgagor making default under the mortgage, to foreclose the same and procure the appointment of a receiver of the rents and profits of the mortgaged premises.—(Fletcher vs. McKeon, 71 App. Div. 278.)

(This case, when heard at Special Term, was decided in favor of the tenant. The decision was reported in the Record and Guide November 28, 1901, page 691. The Appellate Division, in reversing the court below, uses the following language: "The owner of the equity of redemption could not defeat the right of the mortgagee by a lease of the premises and secure payment of rent in advance. To hold that such right existed would open the door for successful fraud in every case of rent-productive mortgaged premises, where the security is inadequate for the payment of the mortgage debt. All that would be necessary to secure rents from the time of default until there could be a sale under a decree of foreclosure, and the production of a deed by the purchaser would be for the owner of the equity of redemption to execute a lease receiving rent in advance. During such period the earning power of the property would be at the mercy of such owners even though it was utterly inadequate to pay the mortgage debt. And when we consider the obstacles which may be thrown in the way of the foreclosure of an honest mortgage it is easily seen that fraud might arise out of such a condition which would be intolerable. It is sufficient now to say that by the application of plain equitable principles no such result is permissible and no such condition will be tolerated."—Law Editor.)

Interest centers largely in the sale of land for improvement The sale by Wm. P. Rae Co. of lots at Sea Gate takes plac to-day. At sales held this week prices were not encouraging Last Wednesday Jas. L. Brumley successfully offered at auctio a large number of lots on Fort Hamilton and 9th avs, 54th, 55th 56th and 57th sts. A hundred and twenty-two out of one hun dred and thirty lots were sold for $23,761. The sale on Wednes day of the Hitchings lots, in the 31st Ward of Brooklyn, b Richard V. Harnett & Co. (Inc.), drew an audience which, fro its size, looked as if there would be active competition. Afte 87 out of 265 lots offered had been knocked down at price ranging from $92.50 to $800 for a corner on Ocean av, the bal ance were withdrawn, the prices being considered too low. Th names of the buyers at these sales and the prices paid for th several parcels struck down will be found in the list of sales o the week, on another page.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

7th.—The letters R. S. mean Revenue Stamp, as R. S. $8.00 means Revenue Stamp $8.00.

Tax on Conveyances executed prior to July 1st, 1901, on $100 to $500, 50c., and for each additional $500 or fraction thereof, 50c.; on Conveyances executed on and after July 1st, 1901, 25c., where consideration exceeds $2,500 and is not more than $3,000, and 25c. for each additional $500 or fraction thereof.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find Mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

Mortgages under this head marked with a * denote that the property is located in the new Annexed District (Act of 1895).

June 13, 14, 16, 17, 18 and 19.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

READY FOR DELIVERY.

The Tenement House Laws, a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses, will be ready for delivery on Tuesday next. In size and character, it will be a companion volume to "The Building Laws of Greater New York," and will contain the alphabetical cross-indexes which have proved so valuable in the building law publications of the Record and Guide.

The price of the book bound in cloth will be $1.50, and orders may now be sent to the Publication Office, Nos. 14 and 16 Vesey St., New York City. This will be the standard book on the subject.

If you fail to read Wants and Offers you may miss something.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

The Private Branch Exchange System of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a **Private Branch Telephone Exchange.**

Full information on request at any of the Contract Offices:

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Record and Guide Quarterly

The annual number of the Record and Guide Quarterly contains all the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations. These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments; also by a list of realty corporations created during the past two years, with officers and the enterprises in which they are engaged. The whole makes a volume of reference which no real estate man can afford to be without. It should be on every desk and in every library. Its cost is as nothing compared to its value as a time-saver. This important work can be obtained, with three quarterly numbers, for the comparatively small sum of $10. It is published by the Record and Guide, at Nos. 14 and 16 Vesey St., where interested parties may see it and have its uses explained to them. If you cannot call, drop a postal card to the Publisher, or call him up on telephone 3157 Cortlandt.

RECORD AND GUIDE QUARTERLY

The Annual number of the Record and Guide Quarterly contains all the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations. These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments; also by a list of realty corporations created during the past two years, with officers and the enterprises in which they are engaged. The whole makes a volume of reference which no real estate man can afford to be without. It should be on every desk and in every library. Its cost is as nothing compared to its value as a time-saver. This important work can be obtained, with three quarterly numbers, for the comparatively small sum of $10. It is published by the Record and Guide, at Nos. 14 and 16 Vesey St., where interested parties may see it and have its uses explained to them. If you cannot call, drop a postal card to the Publisher, or call him up on telephone 3157 Cortlandt.

Vol. LXIX. JUNE 28, 1902. No. 1789

EVENTS like the unfortunate one of this week which abruptly stopped the British coronation festivities, have in themselves but a slight and temporary effect upon business; yet they bring men into the thinking mood. People are brought up suddenly to appreciate the latent powers of unseen forces, and are then given to weigh conditions and consequences more carefully than at other times. This appears to be the attitude of the public on both sides of the Atlantic at the present momont, and the outcome is likely to be an increased conservancy of action. Not only have there been events having the elements of possible serious political and economic consequences, of which the first, King Edward's illness is a specimen, and of the second the coal strike, but prosperity in business this side of the water has been accompanied by such an increase in the cost of doing it, that business men may well hesitate before extending their operations or undertaking new ventures. It is also a distinctive feature of the situation that occurrences, that in other circumstances would have a stimulating effect fail of that result. Nothing illustrates this better than the history of the security markets since the close of the Boer War, whose dulness is positively illuminated by the completeness and thoroughness of the settlement made between British and Boers. Altogether, the markets, our own and those of Europe are awaiting an incentive to movement. There is a large optimistic party very fully represented among opulent New Yorkers, who think the incentive when it comes will be favorable and the movement upward; but, somehow, conditions and precedents are against them.

HOW much of truth there may be in the reports that the Pennsylvania Rapid Transit contract may not be approved by the Board of Aldermen, we do not know. This, however, we do know, that the Board could not do a more unpopular thing than reject it. The Pennsylvania Railroad Co. have come into this City in a perfectly business-like way. They have projected an improvement, naturally in their own interest, yet of the utmost public utility. They have made a large investment in realty and have met the City's demands for compensation for the privileges in the streets they have asked for in a fair and straightforward way. The compensation satisfies officials who are broad-minded business men and pledged to see that the City obtains the full value of what it grants. The public has perfect confidence in their judgment and purposes; and, besides desiring that there should be no obstacle put in the way of the Pennsylvania scheme, would unhesitatingly condemn tactics employed for that purpose. The Board cannot be blind to the value of the improvement to the City as a whole, and will doubtless approve the contract after giving it the consideration so important a matter requires.

AS a matter of duty, though feeling that, owing to our previous references to the matter, it may be unnecessary, we call our readers attention to the fact that the Act of Congress repealing the balance of war taxes still standing after the prior repealing act of last year, goes into effect on Tuesday next. It will not be necessary to affix stamps to documents executed then and thereafter, including conveyances and brokers' contracts.

THE suit over the "use and occupancy" insurance of the Hotel Jefferson is another instance showing the care with which insurance should be placed. When a fire causes damage in an insured hotel so that 105 of its 115 rooms, the elevator and restaurant cannot be used, and the proprietor has to go to court to prove total loss on a use and occupancy policy, it looks very much as if the underwriters took anything but an ideal view of their responsibilities under the contract. This seems to have been the case as regards the Hotel Jefferson, the proprietor of which was plaintiff in a suit against the Aetna Insurance Co. to recover compensation under a policy of the kind previously described. It is satisfactory to find the courts taking a commonsense view of the matter. In sustaining the plaintiff's contention that there was a total loss, the Appellate Division, by Justice McLaughlin, points out that the policy was not to indemnify the plaintiff for an injury to the building, but for loss of use and occupancy of it, and when the building was so far destroyed that the business connected with it could not be carried on until repairs had been made, then there had occurred a total loss within the meaning of the policy which the defendant was liable to respond to in damages.

Practical Organization.

THE recent incorporation of an association to be called the Realty League is a wise and admirable step. Such an organization has every chance of becoming a great and peculiar benefit to real estate owners. There is no interest in this city that needs so badly both the power and protection which will come from efficient association. Yet at the same time there is no interest in the city which is so loosely and inefficiently organized—which is entirely without an association that represents with zeal, intelligence and breadth the enormous interests of the real estate owners of New York.

The present organizations are either local or professional. They perform useful and necessary work within their proper but narrow fields; but their local and professional character necessarily restricts both their membership and their purposes. The Real Estate Board of Brokers is an excellent association; but it cannot be expected to gather to its support many people not immediately interested in the commission business. Its membership has never been anything like as representative as that of the old Real Estate Exchange. The Builders' League is an energetic and prosperous organization, which, however, appeals only to builders and material men. The West End Association, the oldest and the most active of the local associations, has performed useful work even outside the limits of its own particular district, yet local it is and local it must remain. The United Real Estate Owners' Association has made an attempt to affiliate these various local associations into a central organization, which should represent the property-owners of the whole city. At one time this course seemed to the Record & Guide the most practical and promising manner of organizing New York real estate interests; after an investigation, however, made during the fall of 1900, the conclusion was forced upon us that upon the whole a broad, enlightened and progressive organization could not be built up upon that basis. The members of the local associations are much interested in their local improvements; but they are generally very meagrely interested in the larger questions of taxation and policy, which so vitally affect real estate. They are rarely, as the western phrase is, "broad-gauge" men, and the real estate organizations, which are to be really useful, must be in the hands of men of that character; they must gather to themselves the selected brokers, builders and property-owners, who have ideas, as well as interests, and who are able to take a comprehensive and public-spirited view of real estate needs.

The Record & Guide has in this connection frequently called attention to the work of the Merchants' Association, and has urged its support by New York property-owners. The work of that association has been conducted with both enlightenment and energy. Its investigation of the sources of New York water supply was one of the most admirable and intelligent interprises ever undertaken by a private association for the benefit of the New York public. The investigation it now proposes to conduct into municipal accounting and book-keeping is another example of the same sort of thing. Its great purpose is to discover some reason, which sufficiently explains the great costliness of municipal services in New York, and some efficient remedy for this extravagance; and there is no work within the whole range of local government more necessary than this. But while the Record & Guide has urged that the Merchants' Association be supported in its undertakings, we have always recognized that such an association could never take the place or do the peculiar work of a New York property-owners' organization. The Merchants' Association is chiefly a collection of business men in the dry-goods district. It has become something more than a trade association, because its officials realized that the business of New York City was seriously threatened by municipal extravagance and excessive taxation. Yet, as a trade association, composed chiefly of dry-goods merchants, it could hardly expect to command the general support of real estate owners. Such support could only be obtained by an association composed principally of property-owners and their representatives.

The Realty League is such an association. Its membership is at present composed of some of the most active and public-spirited brokers, and builders and unprofessional owners of real property and their representatives in the city; but this membership will undoubtedly increase and broaden according as its work becomes effective and popular. And it can only become effective and popular by the adoption of a liberal and energetic policy. This policy should have at least two main purposes—distinct, but equally important. The first of these should be to protect local and particular real estate interests against official neglect, ignorance, or extortion. It should urge necessary improvements, scrutinize their cost, and in every possible way make the city officials realize that they are being rigorously held up to their work by the agents of a representative and powerful association. The second purpose should be the larger one of trying to make the municipal policy of the Greater New York as far-sighted and efficient as possible. It should put the same test to a regenerate as to an unregenerate municipal administration. Has that administration spent the money contributed by the property-owners with honesty, economy and wisdom? We are well aware that this is not the whole question of municipal governmentt; but it is the question in which taxpayers are most interested, and it is the question, which in spite of much newspaper talk is never seriously and intelligently put. The other aspects and opportunities of our local government receive the close attention of many men and many associations; but the business aspect has no special and persistent representative and advocate. That is the opportunity and the work of the Realty League.

ANOTHER draft pay-window ordinance has been introduced into the Board of Aldermen and is now awaiting action by that body. This is intended, while providing regulations for the construction of bay, oriel or show windows, to remove the objections, or some of the objections to the ordinance drafted for the same purpose and reviewed in these columns some time ago. It will be remembered that the position of affairs is this: According to the legal advisers of the City the charter requires that permits for projections in the street shall only be granted under a general ordinance, and that fees shall be charged therefor. The disclosure of this fact coupled with the additional fact that the Board of Aldermen have not framed a general ordinance is delaying a number of building operations in the City because, until such ordinance has been passed, the Building Bureaus cannot approve plans. The ordinance now offered to the Board of Aldermen for their approval, recognizes the right of the Park Department to issue permits for bay windows in, and within a distance of 350 feet from a park, square or public place, and make the Commissioners of Public Works the issuing authorities elsewhere. It requires that the consent of property-owners within a distance of fifty feet on each side shall be first obtained and endorsed upon the application for the permit. The amount to be paid for the privilege is fixed at "not less than one dollar, and not more than five dollars, for each and every square foot or fraction thereof of area covered by the window beyond the building line and every story through which it is carried, the rate to be based upon the assessed value of the property as confirmed by the City authorities." To apply these charges it is provided that: "The Commissioners of Public Works and the Park Commissioners shall divide the City into districts, throughout which, in each district, the rate per square foot shall be uniform, the maximum rate being charged where the assessed valuation per square foot is the greatest, and the minimum rate where the assessed valuation per square foot is the least; the intermediate rates being proportioned accordingly." Construction is to comply with the Building Code, and regulations are framed for cases of reconstruction, the supervision and control of the issuing of permits and penalties for any violaton of their terms, etc.

IT will be noticed that it is still intended to include all window projections within the scope of the ordinance and that payment would, after its passage, have to be made for bay-windows outside of the jurisdiction of the Park Department and for show-windows everywhere for which hitherto no payment has been made. In this way it is probably thought, and, in fact, would be the case, that a respectable addition to the public revenue could be raised. An attempt is made to reach an equitable basis for the charges by distributing them to some extent according to tax valuations, but would it not be better to make no charge at all beyond a nominal fee to cover the cost of issuing the permit? It is a remarkable thing how anxious public officials are to wring every cent possible from real estate. A carrying or a trading corporation can, or could obtain the most valuable privileges from the City without anything like adequite payment, but the property-owner—the taxpayer—who directly provides six-sevenths of the municipal income, cannot have the smallest privilege without being asked to pay handsomely for it. In this case, for instance, while an extension window is admittedly a great advantage to the property, it can be built, under proper regulations, not only without injuring anyone, but to occupy space that cannot in any conceivable way be occupied by anything else. Therefore, to make more than a nominal charge for the privilege of building the window is to use the powers granted by the charter to impose a special and discriminating tax upon particular properties. In principle this is wrong. Owners have so far not complained of charges for bay-windows where they have been imposed, but they will surely do so if this ordinance, which so extends the system of charging for them, should pass. The Board of Aldermen have the matter in their hands, because, if the charter does require them to fix a fee for the privilege, it leaves them entirely free to say what shall be its amount.

The Real Estate Situation.

The conditions prevailing in the private sales market, as far as the published reports reveal them, are almost those of midsummer. What few investors there were have almost entirely disappeared, and the little business that is being done is by the individual operator. Even the realty corporations have stopped buying. The purchase this week by W. W. & T. M. Hall, of the Clark lots on Seventy-third and Seventy-fourth Streets, west of Central Park West, is the one particular interesting item of news; in fact, brokers and owners on the West Side are pointing to it as the forerunner of a movement in that section, such as the East Side has had this spring, with this difference, that they think the buying will be for occupancy and not for speculative building. If such a movement does take place it will undoubtedly be sustained by intending residents, as the operators have long since forsaken the section, and the only thing they will touch at the present time is lots, and these must be available for improvements with apartments. One of the largest operators stated not long since that private houses on the West Side were being almost given away. To come back to the Hall purchase, the lots are certainly the best ones left in the section suitable for improvements with private houses; in fact, the only others nearly as desirable are those from Eighty-fifth to Eighty-Sixth Streets, just west of Central Park West, owned by the Clark Estate. Then, again, Mr. Clark is erecting for investment eighteen high class dwellings on Seventy-fourth Street adjoining the lots bought by the Halls, and it may be confidently assumed that they will be rented only to a very desirable class of tenants, thus making a choice neighborhood and one in which it should not be hard to dispose of a half a dozen good houses. The other transactions make public are the usual kind heard of at this season and are hardly worth special mention. One has been closed in the lower section involving seven figures, to which title will pass on June 30th, and which we are not at liberty to make public; this, however, is a transaction closed a month ago and can hardly be figured in the present business.

The Arrival of Summer.

The construction of private dwellings in Manhattan has been controlled by very different tendencies during the first six months of this year compared to the same period in 1901; and the purchase of W. W. & T. M. Hall of six lots on 73rd & 74th Sts., for the purpose of erecting residences thereon calls attention to these changes. It cannot be said, indeed, that this purchase foreshadows an immediate return on the part of the speculative builders of private houses to the West Side as their field of operations, for the area of speculation on the West Side in such buildings is extremely restricted. The present operation seems to be a shrewd attempt to take advantage of the interest in expensive private houses in that vicinity which will be caused by the erection of 18 dwellings on 73rd St., for investment by the Clark estate. But the operation is also indicative of the fact, to which the filings for the last six months in the Building Department plainly testifies, that speculative builders are a little afraid under existing conditions to undertake any additional operations on the East Side. During 1901 plans were filed for fully thirty-five expensive residences, on locations to the south and east of the Central Park, which would subsequently be offered for sale. Most of these residences have come upon the market this spring, and while some few of them have been sold, enough of them have remained unsold to make it inadvisable to further increase the supply in that part of the city. The conse-

Dwellings on the West Side.

quence is that while there have been during the first six months of 1902 more plans filed for dwellings than during the first six months of 1901, these dwellings have also been much better distributed throughout the whole of Manhattan than has been customary of late. Every part of the Borough, including Harlem and Washington Heights, have come in for a share of the transactions. There has been nothing like the activity of the years in which almost 1,000 private dwellings were erected at a cost of $12,000,000; but the filings will compare very favorably with any year since 1897, and they distinctly foreshadow the time, when the records of the early nineties will be surpassed.

What the Filings Show.

There have been plans filed to date for some 90 private dwellings to be erected at an estimated cost of $3,954,000. This is an average of some $44,000 for each dwelling, which is a very respectable average indeed—larger than the average for any previous year except 1901. It means that the average cost to the owner of the new private residences now being erected in Manhattan is a good deal more than $100,000 each. These 90 dwellings are well distributed throughout the Borough. Some eighteen of them, to cost $960,000, are situated south of Central Park, an average of $53,300 for each dwelling in this district. Of these eighteen houses, ten are being erected by builders for sale, and eight by the owners for their own habitation. On the East Side the number of new dwellings is smaller, but their cost is larger. Plans have been filed for 15 of them to cost $1,187,000, an average of $79,100 for each dwelling in that district. Out of these 15 private houses only 11 are being built by speculators, who will offer them for sale after completion. The amount of money now being spent for dwellings on the West Side is about the same as on the East Side, but the number is greater. Some 28 of them are being erected at an estimated cost of $1,221,000; an average of $43,700 for each dwelling. Of these eight are being built for sale, 18 for investment, and the other two for habitation by the owners. All but five of them will be built east of Columbus Ave.—between 72nd and 77th Sts. Obviously these figures do not point to a revival of the building of private dwellings on the West Side; for of the 28 new residences 18 are for one estate. Still, the few rows of new dwellings recently erected on the West Side have with one exception been well sold, and this fact may encourage builders. The great obstacle is the price of land, which is making it impossible to erect private dwellings in that district that will sell for less than $35,000 or $40,000. What the speculative builder of these residences needs is the opportunity to put them up at a cost to the buyer of from $15,000 to $20,000. Then they could be sold as fast as they could be built; and this is what will happen on Washington Heights. During the past six months plans were filed for seven dwellings to be erected in that district at an estimated cost of $87,000; an average of $12,400 for each dwelling. Of these all but one was built to sell. Finally the district north of the Park has also been a little more active than usual in the erection of this class of buildings. Plans have been filed for some 22 of them to be built at an estimated cost of $489,000—an average of about $22,500 for each dwelling. All these are built by speculative builders, who could scarcely get out whole unless they could sell each house for $35,000. Harlem is much like the West Side in the extent to which apartment houses and hotel construction has spoiled the market for residences by making the price of land too high.

Auction Incidents.

There were three sales of interest in the auction room this week. The corner of Fifth Ave. and Tenth Street sold by Peter F. Meyer, developed a very lively competition and showed that a lot on this avenue can always be sold. It is said by good judges that the price obtained, $77,500, is one that will give the buyers a good profit. The others are interesting for an entirely different reason and show that it will pay intending sellers to be careful to give exact facts about property which they offer at auction. No. 22 West 40th St., which was offered this week, was sold in May for $63,000. In that sale the seller neglected to state that the property was restricted to a dwelling improvement. The buyer rejected title and the result was that on Wednesday it was knocked down to one of the interested parties for nearly $5,000 less than it brought on May 7, although the first buyer could have hardly used it for any but dwelling purposes: The second property that went through a similar experience is No. 97 East Broadway, which was sold recently for $36,050, and on account of a small difference between actual and stated dimensions, which could have no effect on the income, the buyer refused to take it. It was again put up for sale this week and went to the same buyer for $2,800 less than his final bid at the first sale.

The Realty League.

AIMS AND PURPOSES OF THE NEW ORGANIZATION.

Last week the Record and Guide printed a short notice of the incorporation of a new association of property-owners in this city to be known as the Realty League of New York. The names of the members of the board of directors were included, as well as a partial list of the members, for the most part influential property-owners, brokers, trustees for estates, etc. In order that a fuller statement of the aims and purposes of the League might be obtained, several of those interested have been interviewed, and the following facts accumulated.

Hamilton C. Rickaby, secretary of the League, with offices at 68 William st, explained that grievances of property-owners with the authorities, and with others, were so numerous and of such a serious nature, that some powerful and representative organization was needed to cope with them. Only a short time ago it was proposed to compel owners of certain classes of houses to provide fire-alarms, under conditions that the element of competition in appliances was eliminated, and the service was to cost each owner $50 at least. This matter is at present pending before the Mayor. Later Water Commissioner Dougherty attempted to force the use of meters to an entirely uncalled-for extent. There are constantly arising disagreeable and serious matters of this sort, and the Realty League is designed to fight abuses of all descriptions, and do all within its power to ameliorate the very unfavorable conditions under which New York real estate owners at present find themselves.

C. W. Kirby, one of the directors, made a similar statement, and added that he believed the Realty League would within a short time be a potent factor in the city. Committees are to be appointed to watch and report upon the doings of the Legislature, as well as of the Board of Aldermen; in short, it is hoped and expected that everything which will in any way benefit the owner of property or his agent will be attended to in a thoroughly business-like manner. The co-operation of other property-owners' associations is desired, and the work of the Merchants' Association highly commended.

Frank R. Hougton, another director, said that the time was ripe for the formation of a permanent organization of prominent and influential men to look after the immense real estate interests of the city, the only wonder to him being that such an association had not come into existence sooner. The prominence and reputation of the men instrumental in getting the movement under way is an earnest of a competent and vigorous management.

John F. Doyle said: "The Realty League is to be composed of men who have money invested in real property in this city, and who want to see the property-owners fairly treated. The League will take up any just grievance which one of its members may have, and uphold the cause of that member with all the power of the organization. Particular attention will be given to the study of taxation measures, improvements, legislation, etc. Our purpose is to build up an organization of property-owners which shall be far more representative and powerful than any similar association which this city has ever known."

Reviewing Assessments.

Justice Gaynor has dissolved an injunction on the Board of Estimate and Apportionment to restrain them from reviewing certain resolutions of the old Board of Public Improvements reducing assessments previously fixed for street openings, a list of which was given on page 1099 of the Record and Guide of June 10th last. Temporary injunction was obtained by one John Gilgar, as a taxpayer, but Justice Gaynor denied the motion to make the injunction permanent in an opinion in which he said: "I do not see how this suit can be maintained. It is claimed that the determination of the former Board of Public Improvements in apportioning the future expenses of opening certain streets between the city at large and the real property to be benefited was final, and that the Board of Estimate and Apportionment cannot reopen and change it. This seems to be so, but I do not need to determine it. Assuming that it is so, nevertheless, the complaint fails to show that the plaintiff, as a taxpayer, has any interest to enable him to maintain this suit to prevent the action which the Board of Estimate and Apportionment proposes to take." The matter was to have been taken up again at the meeting of the Board of Estimate held yesterday, but Mayor Low announced that other injunctions had been served on the Board, and further consideration must be postponed pending action by the courts.

READY FOR DELIVERY.

The Tenement House Laws, a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses, is now ready for delivery. In size and character, it is a companion volume to "The Building Laws of Greater New York." Published by the Record and Guide, 14 and 16 Vesey St.

Vacant Lots in Manhattan.

CONSUMPTION SINCE 1890, AND REMAINDER BETWEEN 59TH AND 125TH STREETS.

The time is obviously rapidly approaching when there will be practically no vacant land remaining on Manhattan Island. North, west and south of the Park, it is now almost solidly improved. Washington Heights and the lowlands beyond are still comparatively untouched, but during the next fifteen years they will be occupied probably with even greater celerity than has the west and east sides during the past fifteen years, because the spread of population will not be hampered to the same extent by unfortunate transit conditions. There are some 60,000 people added every year to the number of residents on Manhattan Island alone, and 60,000 people take up a great deal of space. It is true that the space they take up is not all of it by any means vacant space, for a large proportion of this increase in population settles on the lower East Side, or in some other part of the city that has already been improved once. Out of the more than 500,000 increase in inhabitants between 1890 and 1900, probably not more than a half took residence in those parts of the borough in which vacant lots still remain. Moreover, the actual absorption of vacant space per head of increase is less than formerly, because the proportion of private dwellings erected is so very much smaller. Thus a family which inhabits a private dwelling must have all to itself at least 1,500 square feet of space. But in a modern elevator apartment, six stories high, and covering 10,000 square feet, there are probably fifty families, which would mean a displacement of only 200 square feet for each family; and in the case of tenements the displacment is, of course, still smaller. This will account for the fact that the actual consumption of vacant lots during the past decade is less than might in advance have seemed probable.

whole avenue. On both sides of Lexington av there were in 1890 208 unimproved lots between 59th and 125th sts, which shows that the proximity of that avenue to the elevated road had even at that period resulted in its being pretty thoroughly improved. By the present time these 208 lots have diminished to 60, which, as in the case of Park av, are very evenly distributed throughout the whole distance. Sixty vacant lots on over 130 blocks leaves an average of only one lot to every other block.

From 3d av east we reach a more distinctly tenement house region, which is less improved than all the blocks immediately to the west. In 1890, for instance, there were 180 vacant lots on 3d av between 59th and 125th sts, which was some 29 less than on Lexington av. At the present time there are 89 vacant lots on 3d av between the same streets, which is 29 more than on Lexington av. Hence there was a decrease of 71% of space on Lexington av and only 58% on 3d av—a difference which will be explained by the fact that business on 3d av has been bad during part of the period in question, while Lexington av has had recently the advantage of the electric trolley. On 2d av there were in 1890, between 59th and 125th sts, 194 vacant lots, a number which has become 120 during the succeeding twelve years. These 120 lots are, however, very unevenly distributed among the different parts of the district. Thus there are 47 between 59th and 72d sts and 58 all together between 86th and 110th sts. Half the number blocks (not continuous, however,) contain all the vacancies but 15. On 1st av there were in 1890 more vacancies on any avenue except Madison. Their number between 59th and 125th sts amounted to 398. Neither has the decrease since been very large, for there are still within the same area 239 vacant lots, of which 157 are situated between 86th and 110th sts. On Avenue A the percentage of decrease is smaller than on 1st av. In 1890 there were on that avenue some 393 vacant lots, of which 301 still remain vacant.

This second table includes the vacant lot statistics for the side

This first table shows the number of unimproved lots now remaining on the avenues from 5th av east and between 59th and 125th sts, compared with the number which remained in 1890 and 1891. Thus, on the east side of 5th av, between 59th and 125th sts, there were in 1890 389 vacant lots, which in 1891 had become 376, a decrease of 13 in one year. In 1902, eleven years later, the 376 had become 236, a diminution of 140, or an average of just about 13 every year. Between 59th and 72d sts the diminution was large, and out of the 49 unoccupied lots in 1890 there now remain only 10. Between 72d and 86th sts the vacant lots decreased during the same years from 81 to 46; between 86th and 96th sts, from 71 to 63; between 96th and 110th sts, from 112 to 97; between 110th and 116th sts, from 44 to 6; and between 116th and 125th sts, from 32 to 14. It will be seen that the larger proportion of the decrease which took place occurred south of 86th and north of 110th st. Between 86th and 110th sts only 23 lots have been built upon in twelve years, and one-third of the number of blocks only contributed one-seventh of the number of lots consumed. Madison av makes a very different showing. On both sides of that avenue there were in 1890, between 59th and 125th sts, 458 vacant lots; now there are only 106, a decrease of 352, or 76%, in twelve years. There are more than twice as many vacant lots remaining on one side of 5th av than there are on both sides of Madison av. Moreover, of the 106 unoccupied lots left, 70 of them are situated between 86th and 110th sts. The rest of Madison av is, practically speaking, entirely built over. On both sides of Park av there were in 1890, between 59th and 125th sts, 335 vacant lots, which had decreased by 1902 to 112. The decrease is much smaller, proportionately, than on Madison av, and is more evenly distributed along the streets between 59th and 125th sts, 5th and 2d avs. Thus, between 5th and Madison avs, 59th and 125th sts, there were 657 vacant lots in 1890; in 1902 there were only 284, of which 202 were situated between 86th and 110th sts. Thus one-third of the area contributes more than two-thirds of the vacancies. Between Madison and Park avs, 59th and 125th sts there were in 1890 393 vacancies, which decreased to 121 by May of the present year, and of these 87 are in the inaccessible district between 86th and 110th sts. Outside of this area there is very little vacant land from Park to 5th av—only 116 lots all told. Between Park and Lexington avs, 59th and 125th sts there were even in 1890 only 308 vacant lots, which number has since been reduced to 92, pretty evenly distributed throughout the whole area. Between Lexington and 3d avs and the same streets there were in 1890 a still smaller number of vacant lots, amounting to no more than 280, the smallest total to be found in any of the districts we are considering. In 1902, however, this total had decreased to 135, which is a larger number of vacancies than those remaining in the streets between Lexington and Park avs. Between 2d and 3d avs there were in 1890 the large number of 619 unimproved lots, which during the twelve years until 1902 decreased to 305. Those vacancies which remain are spread very evenly throughout the whole district.

The third table shows the vacant lots on the streets between 59th and 125th sts from 2d av east, as well as some interesting totals. This region was in 1890 much less improved than were

the streets nearer 3d av, and during the twelve succeeding years building has not been very active just in that vicinity. Thus there were in 1890 937 vacant lots between 59th and 125th sts, 2d and 1st avs; 1,276 vacant lots between 1st av and Avenue A; 1,053 between Avenue A and Avenue B. By May, 1902, the 937 vacant lots between 2d and 1st avs had become 462, the 1,276 between 1st av and Avenue A 1,016, and the 1,053 between Avenues A and B 816. Near the elevated roads the diminution amounted to fully 50%, but further east to not more than 20%. The figures for the totals are more significant. The whole number of avenue and street lots vacant in 1890 on the East Side was 8,167, and in 1902, 4,561, the decrease being 3,606 in number and 44 in percentage. Of this diminution the avenue lots contributed 1,314, or 49% of their total, and the street lots 2,292, or 41% of their total. Consequently, building has been somewhat more active on the avenues than on the streets, which is only natural. On the whole, the figures show that the regions of greatest building activity on the East Side have varied curiously. Madison, Park, Lexington and 2d avs have seen many more buildings erected than have the other avenues, either further west or further east. But so far as the side streets are concerned, it is harder to describe precisely the areas of most activity. Between 5th and Park avs there is an empty space stretching from 86th to 110th st. East of that buildings run very solidly until 2d av is reached, when they begin to thin out, the vacancy being particularly noticeable, curiously enough, south of 72d st.

Total	20,633	9,656	8,167	7,642	4,561	1,489	5,095

Table No. IV. is confined entirely to totals, and shows the proportion of vacancies on the East Side at different periods, compared to the total number of lots, whether vacant or not. Thus there are, all told, some 20,633 lots in that region, both improved and unimproved. Of this number there were in 1886 9,656 vacant, so that at that time 46% of the total were unoccupied and 54% occupied. By May, 1891, five years later, the vacant lots shrunk to 7,642, which was 36% of the whole number of lots. At the present time there are 4,561 vacant lots remaining, which is 22% of the entire number. From 1886 to 1890 there were 1,489 lots occupied, an average of 367 every year. From 1890 to 1902 there were 3,606 occupied, an average of about 300 every year. An examination of the details of the figures shows that in 1886 almost two-thirds of the vacant lots had been improved from 59th to 86th st, but that north of 86th st anywhere from a half to two-thirds of the available space remained vacant. Since 1886 there has been very little building from 59th to 72d st, a great deal from 72d to 96th, not so much from 96th to 110th, but most of all from 110th to 125th st.

We give below a complete analysis of the figures for Central Park West, Columbus avenue and the Grand Boulevard (now Broadway), between 59th and 110th sts:

The tables which we can give for the West Side are much less complete than those for the East Side, being confined entirely to the situation on the avenues. But such as they are, they are very interesting in showing the trend of improvement during recent years. Thus Table V. exhibits both the amount and the kind of buildings on Central Park West, Columbus av, Broadway, between 59th and 110th sts, in 1890, compared to the present day. On Central Park West there are 402 lots improved and unimproved, of which in 1890 109, or 27%, were occupied and 293, or 73%, were unoccupied. Of the buildings, 25, or about 3%, were flats and 13, or about 17%, were private dwellings. In 1902, on the other hand, 280 lots, or 69%, had been improved and only 122, or 31%, remained vacant. On the 171 lots which had been improved in the meantime, there were erected 98 flats and only 8 private dwellings, so that out of the 145 buildings on Central Park West at present 70% are flats and only 14% private dwellings. On Columbus av there are altogether 796 lots improved and unimproved. Of these 595, or 76%, were improved in 1890, and 745, or 93%, in 1902. Thus Columbus av, within those streets, is practically entirely built up, the buildings being almost exclusively flats and tenements. On Broadway the progress has been more noticeable, because in 1890 that thoroughfare was but very little improved. Thus out of 782 lots on the avenue only 91, or 13%, were built upon, and of these fully half were covered with old frame buildings. Now, however, 437, or 56%, are improved in one way or another. On these 437 lots there are 144 flats and 116 small buildings, chiefly two-story brick stores and offices.

Table VI. includes the other West Side avenues between 59th and 110th sts, of which the most important are Amsterdam av, West End av and Riverside Drive. They are put in a separate table because they cannot be compared with the figures for any previous year. On Amsterdam av there are 792 lots, of which 661, or 83%, are improved, practically all the improvements being flats. On West End av there are 764 lots, of which 559, or 73%, are improved. But of this space fully 70% is occupied by private dwellings. On Riverside Drive, out of 304 lots, 173, or almost 57%, have been built upon, for the most part with private dwellings. The following sub-table shows the percentage of space now occupied on the important West Side avenues between 59th and 110th sts:

Central Park West ....69 per cent.	Broadway .....56 per cent.
Columbus Ave. .....93 per cent.	West End Ave.....73 per cent.
Amsterdam Ave. .....83 per cent.	Riverside Drive .....57 per cent.

Finally, Table VII. shows the present condition of all the avenues from the west side of 5th av to Riverside Drive between 110th and 125th sts. On the west side of 5th av 83 out of 88 lots are occupied almost exclusively with flats. On Lenox av 176 out of 232 are improved, of which many more than half are covered with private dwellings. On 7th av 180 out of 216 are improved; on 8th, 211 out of 232; on St. Nicholas, 159 out of 200, and on Manhattan, 175 out of 200. The east side of Morningside av is almost entirely covered; the west side has not a building upon it. Amsterdam av has only 127 lots occupied out of 306; Broadway, 84 out of 328; Claremont av, 7 out of 264, and Riverside Drive, 14 out of 196. These figures show, as is well known, that while Morningside Heights is awaiting better transit facilities before building can take place, the flatlands immediately north of the Park are three-quarters covered in.

The Wiliamsburg Bridge Approach.

There was a considerable gathering of property-owners and other interested parties at the meeting of the Board of Estimate yesterday, in anticipation that the matter of widening Delancey st, from Norfolk st to the Bowery, would be considered. At the opening of the meeting, however, President Cantor said the Bridge Commissioner had called upon him and asked that he be given an opportunity to consider the plan, which he had not yet had. (The hearing has been announced in the "City Record" for two or three weeks.) At President Cantor's suggestion the hearing was therefore adjourned for a week or longer to enable him to confer with the Bridge Commissioner. "Another plan and never a decision!" represents the feeling with which this announcement was received, and it is rumored that a change is contemplated in the plan which will provide continuous approach to the Bowery, from Clinton st, and eliminate the Clinton-Norfolk st plaza. It has been the general impression that as Norfolk st is not to be the terminus of the bridge, as originally planned, and as an approach is to be carried westward to the Bowery, and probably later still further, the plaza is unnecessary.

This property was for over 50 years the residence of the late Richard Tighe, the miser millionaire, who left a large estate, which has been in litigation for some time.

17TH ST.—Isabella M. Pettet has sold, through John H. Loscarn, No. 624 East 17th st, a 5-sty tenement, on lot 25x92.

NORTH OF 59TH STREET

78TH ST.—The J. C. Lyons Building & Operating Co. have sold to a Wall st banker the lot 25x102.2 on the north side of 78th st, 185 feet east of 5th av. The company will erect for the buyer a 6-sty American basement dwelling. The lot adjoins the houses of Percival Kuhne and E. C. Converse, and the house will be similar in construction to the high-class houses now being erected in the block by the J. C. Lyons Building & Operating Co.

7TH AV.—Janpole & Werner have sold to Eva Jacobs the plot, 50x100, on the west side of 7th av, 75.11 feet north of 112th st. The plot was sold in May to a buyer who was to erect a 9-sty apartment house thereon, but the transaction fell through. The present buyer will erect a 6-sty apartment house on this site.

86TH ST.—Frederick Heine has sold No. 522 East 86th st, a 4-sty tenement, on lot 28x102.2. Muhlker Bros. were the brokers.

MADISON AV.—Lovejoy & Noyes have sold for Mrs. S. Seabury Jones No. 712 Madison av, a 4-sty and basement dwelling, on lot 20x70.

3D AV.—Flora Lehman has sold to William Beckman No. 1137 3d av.

133D ST.—Charles Griffith Moses & Brother have sold for John Halloran to Max Marx Nos. 233 and 235 West 133d st, two 4-sty single flats, each 19.6x75x100.

94TH ST.—The West Side Construction Company, of which Jacob Axelrod is president, have sold the premises No. 311 West 94th st, a new 6-sty apartment house, just completed, on plot 50x100.

116TH ST.—Patrick J. McNaly has sold to F. Sonneberg, No. 124 East 116th st, a 5-sty flat, on lot 25x100.11.

BROADWAY.—The Manhattan Savings Institution has sold the plot, 99.11x100, at the southwest corner of Broadway and 130th st. G. A. Kaven, the buyer, is offering them for sale at $50,000. Bernard Smyth & Sons are the brokers.

105TH ST.—Slawson & Hobbs have sold for John C. Umberfield No. 311 West 105th st, a 5-sty American basement dwelling, on lot 21x100.

86TH ST.—John P. Kirwan has sold for Nathan and Leon Ottinger No. 104 West 86th st, a 4-sty dwelling, on lot 20x100, which they recently purchased for $27,500. Randolfo G. Barthold is the buyer.

124TH ST.—William J. Quinlan has sold No. 411 East 124th st, a 5-sty tenement, on lot 25x100.11.

85TH ST.—Slawson & Hobbs have sold for Mildred A. Page No. 304 West 85th st, a 4-sty dwelling, on lot 18x86.2.

MADISON AV.—Russell Sage has sold the plot, 100.11x95, at the northwest corner of Madison av and 97th st. This is one of the parcels that Mr. Sage took over from the German-American Real Estate Title Guarantee Co. Morris Mandelstein started to build 5-sty flats on the plot under a loan from the German-American Co.; before he could complete them they were partly destroyed by fire, and while the insurance was being adjusted a second fire entirely destroyed them.

63D ST.—D. B. Freedman is said to have sold Nos. 108 and 110 West 63d st, old buildings, on plot 50x100. The owner of record is William Johnson, who bought them in 1871.

70TH ST.—Mrs. Annette Shannon has sold No. 269 West 70th st, a 3-sty and basement dwelling, on lot 18.9x100.5.

74TH ST.—Slawson & Hobbs have sold for F. Ambrose Clark to W. W. & T. M. Hall, four lots, on the north side of 73d st, commencing 100 feet west of Central Park West, and two lots on the south side of 74th st, commencing 100 feet west of Central Park West. These lots are considered the best lots unbuilt on the West Side. It is the intention of Messrs. Hall to commence at once the erection of 5½ and 6-sty American basement dwellings of the same general character as they have been building and selling on the East Side. F. Ambrose Clark is now erecting eighteen 5-sty dwellings on 74th st, adjoining the lots. The houses are estimated to cost $900,000, and are being built as an investment.

Yesterday the Board of Estimate decided to establish a small park near the approach to the Pike Street Bridge, the cost to be assessed upon the property benefited.

The Wm. P. Rae Co.'s sale at Sea Gate, on Saturday last, was successful, 178 lots being disposed of at from $205 to $455 each. The prices showed an improvement from the sale of July of last year. This sale disposed of the Norton Point Land Co.'s holdings, with the exception of 75 lots adjoining the Atlantic Yacht Club's property.

William Kelly, President of the Alcatraz Asphalt Company, has bought a tract of land at Fort Hamilton, Gravesend and Church avs, comprising about 350 city lots, for $100,000. The property belonged to the old Story estate. Mr. Kelly recently made other purchases in the neighborhood.

Charles Buermann & Co. have sold for Adam Reinhardt Nos. 311 and 313 Lexington av, two 4-sty double flats, 25x80x100 each.

Harlem Property Owners.

The Harlem Property-Owners' Association met Thursday evening, and during the course of the meeting Edward J. Murray made a vigorous attack upon the Corporation Counsel's office. His particular complaint was that that office made a practice of proceeding against owners, even when it was the tenant who was really in fault. The result was that landlords were put to trouble and expense of defending actions brought for neglect of the ordinances which they could by no means avoid, as for instance, snow left on the sidewalk beyond the time allowed for its removal.

Adolph Bloch, attorney for the United Real Estate Owners' Association, made a short address, in which he informed them that the Tenement House Inspectors would begin an inspection next month of tenement houses to see if the owners complied with the new law. He said that the association had formed a committee to fight the new law before the Commissioner in cases where the law was excessive in its requirements. By paying a fee of $5 for each house owners could have their interests protected by the association. He said an attempt to obtain further amendments to the law was in contemplation.

Real Estate Notes.

No stamps will be required on conveyances filed after Monday next.

Most of the prominent real estate brokers announce their intention of closing their offices on the 5th as well as the 4th inst.

Levy Bros. were the brokers in the sale of No. 137 Orchard st, bought by Gordon, Levy, & Co.

Frank E. Smith's new offices, on the ground floor of No. 23 East 20th st, are commodious, well-arranged and handsomely furnished. His new telephone call is 2896 18th st.

W. E. G. Gaillard, of the McVickar Realty Trust Co., and Thomas B. Hiddin leave for abroad on July 6 on the "Lucania." They will remain abroad some weeks.

Floyd Clarkson & Son, real estate brokers and appraisers, formerly at Nos. 40 and 42 Broadway, have removed to the Columbia Building, No. 29 Broadway; this firm has been established many years, and have a large clientage covering all sections of the city.

Henry V. Rothschild, of No. 290 Broadway, is president of the Greenwich Realty Co., who this week took title to No. 28 East 22d st and secured a building loan for $95,000 from the Germania Life Insurance Co. Mr. Rothschild is also president of the Empire Realty Corporation, who, it was recently announced, would erect a large mercantile structure at University pl and 11th st.

The buyer of the Melrose, a 7-sty apartment house, at the northwest corner of Central Park West and 108th st, 100x100, was Alonzo B. Kight. He took it in part payment for the Barnard, at the southwest corner of Central Park West and 71st st.

The houses Nos. 10 and 12 East 60th st, stand as a lone sentinel watching large improvements on both sides of this 50-foot plot. The owners are said to be asking $100,000 for each house, which cost $41,000 for No. 10 in 1881, and $46,500 for No. 12 in 1888.

The Court of Claims, consisting of Charles T. Saxton, John M. Kellogg and G. D. B. Hasbrouck, sat at the County Court House, Manhattan, this week to pass upon claims made against the State for damages to property-owners because of the construction of the viaduct on Park av, above 106th st. About two hundred claims have been presented aggregating $1,500,000. Property-owners who sued for damages lost on appeal, and the Legislature passed an act under which the claims are presented to the Court of Claims. No decisions were rendered on the cases heard.

S. & L. Schubert, managers of the Casino Theatre, are the buyers of Nos. 107 to 113 West 39th st, reported in our last issue. The adjoining northwest corner of 6th av and 39th st has been sold twice in the last month, the present owner being J. M. Horton.

The oft-sold northwest corner of Amsterdam av and 79th st will again be offered under foreclosure on July 8th. There is about $152,000 due to the Metropolitan Life Ins. Co. Since the last sold in August, 1901, the partly constructed flat on the plot has been demolished.

A proposal to open 135th st, from St. Nicholas av, through St. Nicholas Park to St. Nicholas terrace, was considered by the local board this week, and referred to the engineer for an estimate of the cost. Prest. Cantor, at the close of the hearing, said the necessity for this improvement had been demonstrated.

Peter J. Herter, of the well-known firm of Peter Herter & Son, architects and builders of the "Antoinettes," Park av, 58th and 59th sts, was married on Tuesday last to Miss Dorothy W. Dugro, niece of Judge P. H. Dugro. The young couple sailed on the "St. Paul" on Wednesday for a six weeks' trip to Germany.

The Provident Realty Co., who recently purchased Nos. 254 to 258 West 42d st, adjoining the American Theatre, on which a first-class hotel will be erected, and No. 57 Maiden Lane, where a modern business structure will be built, have commodious and well-equipped offices at No. 247 Broadway, corner of Murray st.

C. W. Gaylor, real estate broker, has moved to the front. He now occupies offices fronting on Broadway, on the 8th floor of the Townsend Building, No. 1123 Broadway. He makes the rental of property a specialty, and negotiates mortgage loans, in addition to the sale and exchange of property. His telephone call is 723 Madison square.

READY FOR DELIVERY.

The Tenement House Laws, a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses, is now ready for delivery. In size and character, it is a companion volume to "The Building Laws of Greater New York." Published by the Record and Guide, 14 and 16 Vesey St.

The World of Building

In the Field of Labor.

The first steps toward the attempted establishment of the Brotherhood of Painters, Decorators and Paperhangers of America in the place in New York labor at present occupied by the Amalgamated Painters and Decorators have been taken, and, in the opinion of the bosses interviewed on the subject the success of the effort is assured. The bosses have for a long time been subjected by the Amalgamated Painters to conditions which, they say, have resulted in a great hurt to their businesses. The Brotherhood of Painters offers terms much more advantageous to the employer, among them being a smaller wage scale—$3 a day for varnishers and $3.50 for plain painters and decorators. In addition, bosses are allowed, so states an officer of the Brotherhood, to employ local craftsmen on out-of-town jobs. An earnest crusade is to be made among the non-union painters to spread the doctrines of unionism and establish an even scale of wage on all New York work. If this were once accomplished, he thinks the conditions for both the employer and the employed would be infinitely better. The larger painting contractors are confronted by the problem of bringing the cost of labor to the small master painter to the scale those contracting larger jobs must observe. This is impossible when there is employment of non-union workmen by the small boss, when the large contractor must, because of the fear of the sympathetic strike, employ only union men. It is believed by those who have given thought to the question that the present movement will result in a bettering of conditions. The understanding between the bosses and the Brotherhood seems to be complete. The Association of Interior Decorators and Cabinet Makers of the city have not receded in any degree from their renunciation of the Amalgamated Painters, and their determination to officially ignore that union in the future. At the meeting rooms of the Brotherhood of Painters it is said that the demand for members of the union is heavy, and becoming heavier every day. Jas. P. Archibald, treasurer of the Brotherhood's New York City Council, reports the employment by the John M. Robins Co., shipbuilders, Erie Basin, of a large number of the Brotherhood's men. Mr. Archibald expects to have 500 of his men employed in Erie Basin shipyards in a short time. He says this is only one instance of the demand for Brotherhood painters. Mr. Archibald reports, also, that he is receiving applications from Amalgamated men for admission into the ranks of the Brotherhood.

H. W. Steinbiss, of St. Louis, labor union organizer, has been in New York for some months past preparing for the formation of the National Board of Building Trades, an organization which will be similar in its scope and purposes, and will rival the Board of Building Trades. Among the unions reported to have left the former organization for the purpose of affiliating themselves with the latter are the Manhattan District Council of the United Brotherhood of Carpenters and Joiners, with a membership of about 10,000, and the Mosaic Workers and Elevator Constructors' unions, comprising about 1,200 men each. It is likely that the formation of the National Board of Building Trades was partly the result of the expressions of dissatisfaction on the part of employers at the methods adopted by the older organization, but more because of the refusal of the Board of Building Trades to admit to its membership a number of unions in this city who desired representation. It is a significant fact that a member of the Brotherhood of Painters, Decorators and Paperhangers of America is secretary of the new combination.

Two delegates of unions affiliated with the Board of Building Trades, William P. Hanlon and John Donnelly, were arrested this week on charges of extortion preferred by Charles Jungman, a builder, living at 186 Beach st. Jungman, who was employing non-union labor on a building he was erecting at 152d st and Westchester av, was approached on June 11 by Hanlon, who told him that unless he discharged his non-union men and employed none but union labor, he could get no more material. Jungman refused to discharge his men, and next day was told by his dealers that he could have no more material. Then, Jungman alleges, Hanlon offered to "fix matters up" for $500. Jungman acquiesced, and an appointment was made for the payment of the money. With Hanlon, upon the keeping of the engagement, was Donnelly. The men were arrested and held in $500 bail for trial.

At the office of John R. Smith it was stated that the differences between the stone cutters and the machine men had been settled by the stone cutters taking charge of the planing machines. This change will come about gradually, however, as at present the stone cutters have not enough men to do the work they have assumed.

Material Market.

There are a number of large buildings in Manhattan, the construction of which is now being rushed after a period of delay extending back for weeks, and caused by the scarcity of iron and steel. The arrival of long-delayed orders has given an additional impetus to trade, and the market would be benefited still more widely if there were no more delays due to the iron situation. But the iron delivered recently was to fill orders of long standing, and many other buildings are yet waiting their turn. Dealers are gratified, however, for the starting up, or rather renewal of work, upon a proportion of the buildings planned for the season. Brick, cement, lime, glass and lumber feel the effects in increased demand.

Owing to the enormous production of wire and wire nails the mills are trying to arrange for a general shut-down for two or three weeks in July.

There have been advances in soft steel bars, plates, angles and some sizes of flat iron in New York.

Large importations of foreign billets have been made, but they are not wanted by the manufacturers if they can possibly get domestic billets.

New York City stores have advanced their prices of common bar iron 5c. per hundred lbs., to $2.10@$2.15, and on refined bar iron to $2.15@$2.20. Stores here are asking $2.70 for structural material.

Importations of steel and iron at the port of New York during the week ending June 17 amounted to 12,411 tons, a most unusual figure. Reports from Philadelphia and Baltimore show remarkably heavy imports in those cities also.

Best grades of muck bar are quoted at $37, Pittsburg.

LEAD, ZINC, ETC.

Spelter and zinc sheets have advanced at New York.

Tin has fallen somewhat in prices.

There is a fair business in lead at 4.05c. to 4.10c., New York.

BRICK, CEMENT, LIME.

There is a quickening in the demand for common building brick for the mid-summer operations in Manhattan. It is said that for front brick there is a tendency to go back to the red colors of the Philadelphia and Trenton bricks.

Portland cement in all available quantities is taken to fill the large contracts, especially for culverts and bridges, railroad work and large buildings. The East River Bridge and the tunnels in Manhattan called for unprecedented quantities, and are responsible, perhaps, for the scarcity, as the manufacturers were not prepared for business of such enormous dimensions. But as much of this demand is of a temporary character they do not feel justified in expanding their works beyond what is necessary to supply a more nearly normal demand.

Speaking of the unusual demand for Portland cement, R. N. Denman said: "The older dealers, like myself, are gratified to find that we cannot get enough of the American product to meet the demand, for we can remember the time when foreign cement was always specified in building contracts. In the past 30 or 40 years we have built up the business so that now the imports are insignificant. There is no better Portland cement in the world than what is made in the United States."

One of the Rosendale cement dealers said: "Our business is beginning to feel some effects from the scarcity in Portland cement, because to some extent Rosendale is now being used as a substitute. We are getting the overflow, so to speak, of the Portland cement business. Especially do the builders prefer our goods to hot Portland. The fresher Rosendale is the better, but Portland needs curing, and there isn't time to season all that the market demands. The Ulster County manufacturers are willing to burn their wonderful stone in any quantity in order to meet the emergency. Coal is an essential factor in the business, however, and if the anthracite strike should continue much longer it would embarrass our works."

A New Jersey representative of the Rockland-Rockport Lime Company said that its new mill for making a prepared plaster out of lime will be finished next week, and the product will be on the market by the middle of July. The process is a secret. There will be three grades of the product, browning, scratch coat and finishing coats. The name of the product and the prices have not been decided. The plaster manufacturers say that no substitute for their material has ever been successful, although there have been attempts before to introduce something else.

Belgian cement is being imported in considerable quantities by one of the local dealers in order to take advantage of the present active market, and he is not encountering any difficulty in disposing of his receipts.

As the strike has been settled, State lime is coming into market again.

LUMBER.

Outlying districts, especially in Brooklyn, the Bronx and Westchester County, are buying hemlock and pine more freely for building purposes. Spruce has declined slightly in prices. There is fair activity in other grades of lumber. Hardwood factories continue behind their orders.

Laths are still hard to get. H. B. Homan said Tuesday: "There were 20,000,000 laths that arrived in the past ten days, and they are all sold. On the average about 1,000,000 laths per day reach New York, or, more exactly, 350,000,000 a year. The rapid absorption of double the usual quantity indicated how strong is the demand. The yard men are pressing us with orders, but there are no more laths that the jobbers can sell until we get more shipments. It may be two weeks before we get any more."

GLASS.

There is still talk of the jobbers declaring another advance in prices.

As many factories as possible are being operated by the Independent Glass Company, which expects to keep them running until the middle of July. Under the most favorable conditions it will be short 200,000 to 300,000 boxes.

Jobbers at Pittsburg figure that they can place an order for 500,000 boxes.

PORTLAND CEMENT.

We have received a handsome and carefully-prepared booklet descriptive of the qualities and explanatory of tests by leading cement experts, of "Trowel" Brand Portland cement, which is manufactured near Catskill, N. Y., and has been extensively used under rigid inspection and test, without the rejection of a single barrel, on such important works as the Manhattan "L" R. R., Metropolitan Traction Co., Mt. Sinai Hospital, Consolidated Subway, Union Subway, asphalt work (under approval of Highway Department), U. S. Government work (army and navy), Department of Docks and Ferries, New York public schools, fire-houses, police stations, public library, Riverside Viaduct, and in foundations of many commercial and residential buildings throughout the city. The John P. Kane Co., leading dealers and manufacturers of building materials, are sole owners and distributors of the "Trowel" Brand Portland Cement. In a talk with Mr. Kane this week it was learned that his company could fill any reasonable orders for Portland cement despite the report last week that no orders for 500 barrels for immediate delivery could be filled.

Builders, read Wants and Offers. See page 1186.

Product and Appliance and Other Matters.

We are pleased to learn that Mayor Low is expected to give a decision in the matter of the Manhattan Fire Alarm Company in a few days. There can be no doubt that this decision will be in favor of the Manhattan Fire Alarm Company, inasmuch as Comissioner Sturgis does not appear to have offered any other means of protection for the clients of the Gamewell auxiliary system, either equal or superior.

We hear a lot about steel-protected concrete, but have only been able to find it in use in two or three places in Brooklyn. If it is all it claims to be we ought to see it in the form of curbs, at least, in this busy city.

Our opinion of Masurite is confirmed in many directions. R. L. Somerville, the general manager of the George's Creek Coal and Iron Co., at Farmington, W. Va., writes: "We find the (Masurite) powder much stronger than dynamite, and, of course, much stronger than black powder, and superior to that blasted down with dynamite." Also, "It does not freeze and become useless, as dynamite does." This is hard on dynamite, but it is absolutely true.

"Just a Cook Book for economical gas cooking" is the self-explanatory title of a small publication which may be had for the asking from The Consolidated Gas Company. It contains many useful receipts for puddings, pies and cakes, and also for the preparation of sumptuous repasts. Various kinds of gas stoves are illustrated, with full explanations how to use them.

* * *

The Consolidated Gas Company claims to supply the best gas stoves which are manufactured. These are the Jewel Gas Stoves, made by George M. Clark & Company, at Harvey, near Chicago. These stoves obtained the highest award at the Pan-American Exposition, a gold medal. They received a similar honor also at the Paris Exposition of 1900.

* * *

The Jewel Gas Water Heaters were awarded an additional prize in the form of a bronze medal at the Buffalo Exposition. "Our constant study is not How Cheap, but How Good we can make Jewel Gas Stoves," are the words of George M. Clark & Company, and we can safely assert after a careful examination of their productions that superiority in manufacture, finish, and effectiveness in operation, are claims they are justly entitled to.

We read much about the claims for Manganese Steel Bank Safes, but know nothing about their power to withstand modern burglars' tools, the ferocity of a conflagration, or the new and terrible explosive Masurite, which can be exploded in any given direction under circumstances where dynamite or nitro glycerine would be impossible. What is Manganese steel, anyhow!

Before the Fire Committee of the Board of Aldermen, on Wednesday last, the Superintendent of Buildings, Perez M. Stewart, declared that there is no such thing as fireproof wood. Mr. Stewart was quite right. Francis C. Moore, the president of the Continental Insurance Co., once said "nothing is fireproof." He is also perfectly correct. It is only a matter of degrees of heat. Reflections upon the eruption of Mount Pelee will settle that question.

* * *

But when a building burns, however large it may be, and however great the conflagration, the heat seldom, if ever, rises above 3,000 degrees Fahrenheit. Whatever material will withstand this heat may be pronounced a successful fire retardant, and when wood can be made to be absolutely uninflammable even at that temperature it may fairly be called "fireproof" as building materials go.

* * *

Several weeks ago the Record and Guide referred to the "fireproof" wood which would flame in the Astor St. Regis Hotel. We are pleased to state that this wood was not that known as the "Electric." We never heard of one instance of wood fireproofed by the Electric process failing to fulfil the claims made for it. When Mr. Stewart says he has not one inspector who can tell whether wood is fireproofed or not, we can only say that he is making a "mountain out of a molehill." If the shavings of the wood will blaze it is not fireproof. If the shavings will not blaze, then it may be called fireproof. These shavings may be taken from the core of the wood.

* * *

The United States Government (and the British Government, also) have made elaborate and most severe tests of wood declared fireproof, and have placed on record the fact that one particular process rendered wood uninflammable.

The Prosky lamps recently installed at the residence of Spencer Trask, at Saratoga, by the Municipal Lighting Company are pronounced a great success. The lamps recently installed on Madison Square, in this city, we have seen for ourselves, and can only express our admiration of Colonel Prosky's invention, which produces 2,000 candle power from common kerosene. Acetylene seems now to have taken a back seat.

* * *

Some idea of the immense business carried out by the Federal Audit and Transfer Co. may be guessed from the fact of the company having recently taken possession of an entire floor of the great building at 137 Broadway for offices. From the passing glance we had, we could only see the magnificent desks, partitioning, etc., arranged for gigantic business operations.

* * *

Their offices, in Boston, are not quite so extensive, but are fitted up on a scale which readily convinces one of solidity and business arrangement. One of the recent commissions of this company was an order from the city of Passaic to audit the books of that city for the past twenty years.

* * *

And the builder of caissons and foundations of great buildings and bridges has placed a caisson in the foundation of his own fame by donating five thousand dollars to the Cooper Institute. Mr. John F. O'Rourke received his early education at this noble institute, and that he should remember it in the days of his success is quite in harmony with his general character. He is just as generous as he is skilled in his profession, and when a new and greater Cooper Institute is to be built we have no doubt he will have a hand in the foundation in more ways than one.

The indefatigable agent of the Textile Building, Mr. Thomas Morch, corner of Church and Leonard sts, writes: "I am gratified with the results arising from the advertisement regarding the Textile Building in the Record and Guide. We have rented several floors directly through that advertisement, and I assure you that the results far exceed my most sanguine expectations."

The mention of the fact that Edward Morey Bell, the leading actor at Proctor's theatres, was the inventor of a wonderful fire alarm no doubt helped to fill the Fifth Avenue theatre during the present week, every afternoon and evening. Mr. Bell's performance of Captain Swift was simply superb, and the most intelligent people in the audience were emphatic in their eulogiums of praise. Next week Mr. Bell plays the leading character in "The Nominee," at the 125th St. Theatre. We learn that Mr. Proctor intends to build a new and larger theatre in the city. All may welcome that addition, since Mr. Proctor gives pure and wholesome amusement. The protection against fire at all the Proctor theatres is complete. Behind the scenes all is stone, brick and iron, while the curtains are of asbestos, and a fireman is ever on guard. Small danger there.

Jackson & Co. have leased the block fronting the East River, running from 105th to 106th st, with a frontage of 300 feet on either street, on which they will establish a storage yard for imported marbles, both white and colored. The latest and most modern mechanical appliances and machinery will be installed for the handling of the marble, and when completed the yards will be the most up-to-date of their kind in this vicinity, and the stocks of marble will at all times be adequate to meet the demand. The firm are sole agents in the United States for C. & B. Fabricotti, of Carrara, Italy, who own the celebrated brands of C. F. and F. M. white Italian marble, the largest firm of quarriers and shippers of marble in the world. They are also sole agents of the Del Monte quarries of African Numidian marble, and of the celebrated Marchetti Blanc P. quarries and of the Tyrolean statuary quarries, the Cava Romana, Cava arena and the Istrian stone quarries. They have for a number of years past had their offices at No. 1 Madison av. Mr. Jackson needs no introduction to the architectural and building trades, as he has been for several years recognized as the leading importer in the marble business.

THE EUREKA FIRE HOSE CO.

At the convention of International Association of Fire Chiefs, to be held at the Grand Central Palace, New York city, commencing September 16, 1902, the Eureka Fire Hose Co., New York, will make practically the same exhibit as they did at the Pan-American Exposition, Buffalo, N. Y., and for which they were awarded a gold medal. They will also exhibit the following medals: For premier honors, Centennial Exposition, Philadelphia, Pa., 1876; American Institute, New York; decoration Legion of Honor and gold medal, Paris, France, 1878; gold medal, Barcelona, Spain, 1888; gold medal, Pan-American Exposition, Buffalo, N. Y., 1901.

PROTECTION AGAINST GROUND DAMP.

The following is the method of Leo von Klenze, the Munich architect, for avoiding ground moisture: As soon as the foundation walls have reached a level a few inches below the ground level, the entire area of the walls is to be covered with tar-mortar to a thickness of about half an inch. This tar-mortar is prepared by mixing hot tar or pitch with fine quartzose sand to the consistence of ordinary mortar. When the work has been thus tarred, sheets of lead foil are laid on the surface, taking care that where the plates meet they should overlap at least an inch, and that they stand out 1-2 inches from the surface of the wall, so that their ends can be bent downwards. The sheet lead is first painted on both sides with caoutchouc varnish to protect the lead from oxidation. Upon these sheets of lead a course of tiles is laid in the same tar-mortar, and above this the brickwork is carried up with ordinary mortar.

BIRD'S-EYE MAPLE.

What is bird's-eye maple? That is a question which just now seems to be baffling not only people who use furniture made of this particular wood, but even woodworkers themselves. In a recent number of a woodworking magazine an article was published which stated that bird's-eye maple was not a peculiar maple, but simply ordinary maple cut in a certain way. In a recent issue of the New York "Sun" that statement is refuted. It is there stated, on the authority of a woodworker, that bird's-eye maple and curly maple are both cut only from the logs of the rock maple-tree, Acer saccharinum, in which a beautiful lustrous grain is produced by the sinuous course of the fibres. This tree is not at all the common hard maple. It is a hard maple, but is full of little gnarls called eyes. Men looking for bird's-eye maple-logs go through the standing timber and pick out the bird's-eye maple trees, paying for them from $30 to $50 a thousand feet in the woods. Ordinary hard maple logs are worth only from $6 to $7 a thousand feet. It would be impossible to cut a piece of veneer with eyes in it from a common hard maple log, and it would be equally impossible to cut a bird's-eye maple log, no matter how you cut it, so that it would not show the eyes.—Exchange.

The Accident to Major Shaler.

William K. Hammond's letter, published in the Record and Guide last week, in relation to the accident to Major Shaler in the Rapid Transit tunnel, was the occasion of discussion among a group of members in the Building Material Exchange this week. One of the members expressed an opinion, which seemed to be that of most of the others, as follows. "His letter conveys an erroneous impression, however, that, according to the plans, the tunnel is simply to be cut through the rough rock and left in that condition. When the work is finished there will be no rough rocks. The roof will be supported by iron columns and iron beams. The rock will be trimmed and smoothed, and will be filled in with cement, making as strong and safe a construction as is possible. Nothing can fall, unless the entire structure, columns, beams and roof come down."

This incident shows that, notwithstanding the interest the tunnel has enjoyed, details of its construction escape even professional men. What construction in the rock cuttings is, is brought out in a letter written by Wm. Barclay Parsons, in reply to one to him from Mr. Hammond. Mr. Hammond wrote, apropos of the recent lamentable accident, whether it would not have been infinitely cheaper to have put a brick arch all the way up Park av than to have sacrificed Major Shaler, and asserting that a brick arch through rock-cuts was a positive insurance against such calamities. In acknowledging the letter Mr. Parsons said the tunnel under Park av, as all the rapid transit tunnels were, was lined with a heavy masonry arch. Where the accident occurred to Major Shaler, it was at a point where rock was still being excavated in order that the arch might be put in.

You will find it in Wants and Offers, on page 1186.

Easements Go With the Contracts.

Justice Steckler, in Supreme Court Special Term, this week rendered a decision which is an important contribution to the many decisions affecting the relations of owners of property along the route of the Manhattan Elevated R. R. to the company operating the same. It was rendered in the case of Alfred H. Marvin v. Simon E. Bernheimer and others, and was in part as follows:

The question for decision in this case is whether a vendor in a contract to sell land on the line of the elevated railroad is bound to convey to the vendee not only the land agreed to be sold, but also all easements appurtenant thereto owned by the vendor at the time of the making of the agreement. The contract herein is dated March 16, 1898, and by its terms the defendants agreed to convey to the plaintiff's assignors, December 1 following, five lots of land, free from encumbrances, on the easterly side of Columbus av, between 107th and 108th sts, abutting on the elevated railroad. Before the time fixed for the delivery of the deed, and on October 26, 1898, the defendants delivered to the elevated railroad a conveyance and release of the easements appurtenant to the premises interfered with by the railroad, and in consideration thereof, and of the rental damage already inflicted, defendants received a sum in excess of $2,000. The conveyance and release was not recorded. Neither at the time of the execution of the contract nor the delivery of the deed to plaintiff's assignors was any representation made by defendants as to the ownership of the easements possessed by the railroad, and the vendees knew that the railroad was constructed and operated in front of the lots. From the date of the making of the contract plaintiff's assignors were the equitable owners of the land agreed to be sold, and on equitable principles the vendors stood seized in the land for the benefit of the purchasers. A grant of land abutting on the elevated railroad carries with it all the easements appurtenant to the premises, and the right to recover damages for subsequent injuries thereto passes to the grantee. The easements conveyed by the defendants before the delivery of the deed to plaintiff's assignors were therefore incidental to the land contracted to be sold; the defendants held the legal title to those easements as well as the legal title to the land to which the easements were appurtenant for the benefit of the vendees; and the conveyance and release to the elevated railroad, as between the vendors and the vendees, was wrongful and unauthorized. The vendors, by their own acts, disabled themselves from conveying easements which it was not necessary to mention, and which were not mentioned, either in the contract or the deed; and the effect of the vendors' acts was in equity a fraud upon the vendees. It follows that the plaintiff is entitled to recover that portion of the sum of money received by defendants which represents the fee value of the easements conveyed to the elevated railway.

The Tenement House Laws.

NOW READY FOR DELIVERY.

The Tenement House Laws, a volume edited by Wm. J. Fryer, containing all the laws and regulations concerning tenement houses, is now ready for delivery. In size and character, it is a companion volume to "The Building Laws of Greater New York," and contains the alphabetical cross-indexes which have proved so valuable in the building law publications of the Record and Guide.

The price of the book bound in cloth is $1.50, and orders may now be sent to the Publication Office, Nos. 14 and 16 Vesey St., New York City. This is the standard book on the subject.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482, denote that the property is in section 2 block 482.

6th.—It should also be noted in section and block numbers, the instrument as filed is strictly followed.

7th.—The letters R. S. mean Revenue Stamp, as R. S. $8.00 means Revenue Stamp $8.00.

Tax on Conveyances executed prior to July 1st, 1901, on $100 to $500, 50c., and for each additional $500 or fraction thereof, 50c.; on Conveyances executed on and after July 1st, 1901, 25c., where consideration exceeds $2,500 and is not more than $3,000, and 25c. for each additional $500 or fraction thereof.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage is drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find Mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

Mortgages under this head marked with a * denote that the property is located in the new Annexed District (Act of 1895).

June 20, 21, 23, 24, 25 and 26.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The Private Branch Exchange System of supplying TELEPHONE SERVICE is particularly adapted to the requirements of LARGE HOTELS and APARTMENT HOUSES

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a Private Branch Telephone Exchange.

JUDGMENTS.

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious; real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Ten Dollars instead of Hundreds

It costs many hundred dollars a year in materials and labor to keep and maintain an adequate system of real estate records, for immediate reference.

Ten Dollars is all the work need cost, if you subscribe to the Quarterly Record and Guide, wherein you obtain all the records arranged so that any one of them may be referred to as easily as a word in a dictionary.

All the big brokers and Financial Institutions are subscribers. Send a postal for particulars to
